

Supplementary Materials for:
Structures from MnX₂ and Proline:
Isomorphous racemic compounds and a series of
chiral non-isomorphous chain polymers

Kevin Lamberts and Ulli Englert

List of Figures

1	Experimental (blue) and calculated (red) powder diffractogram of 1a	1
2	Experimental (blue) and calculated (red) powder diffractogram of 1c	2
3	Experimental (blue) and calculated (red) powder diffractogram of 2a	2
4	Experimental (blue) and calculated (red) powder diffractogram of 2b	3
5	Experimental (blue) and calculated (red) powder diffractogram of 2c	3

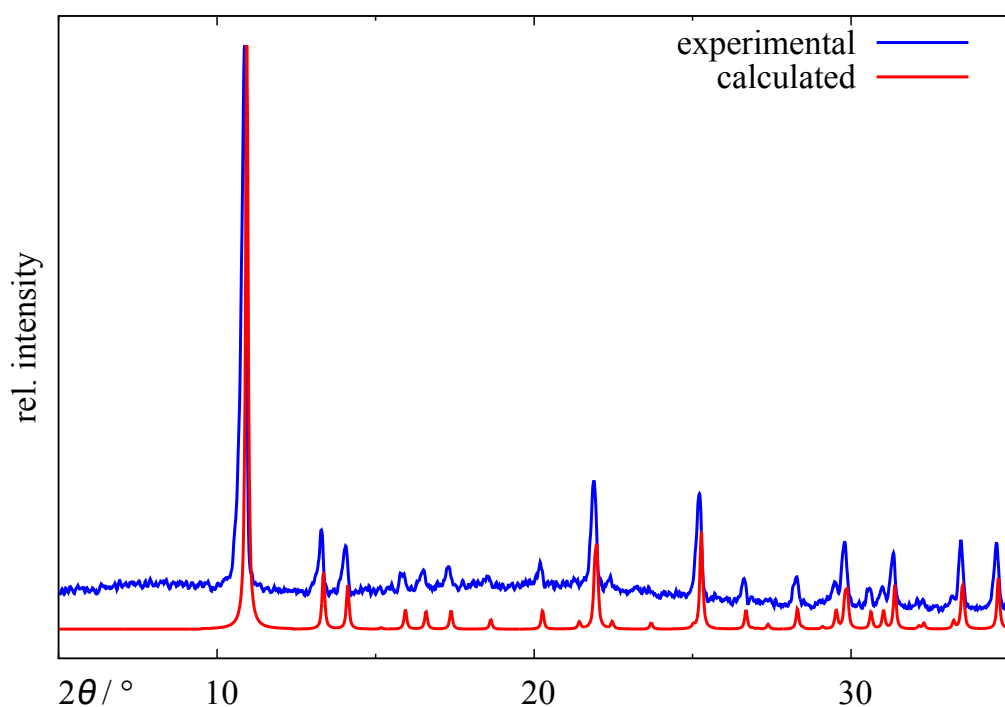

Figure 1: Experimental (blue) and calculated (red) powder diffractogram of **1a**.

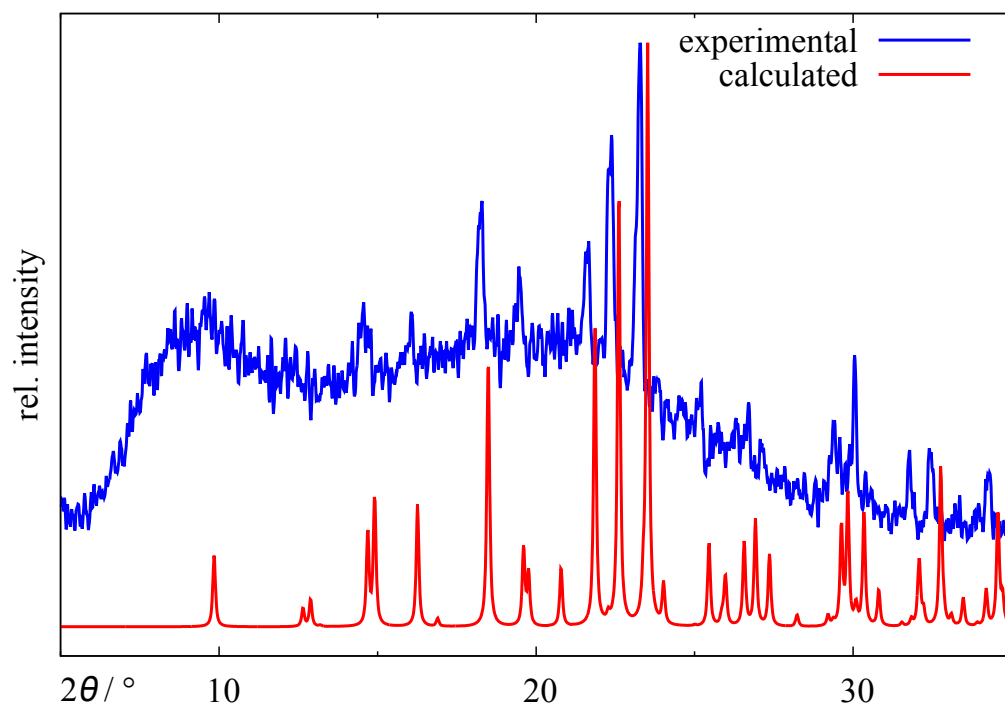

Figure 2: Experimental (blue) and calculated (red) powder diffractogram of **1c**.

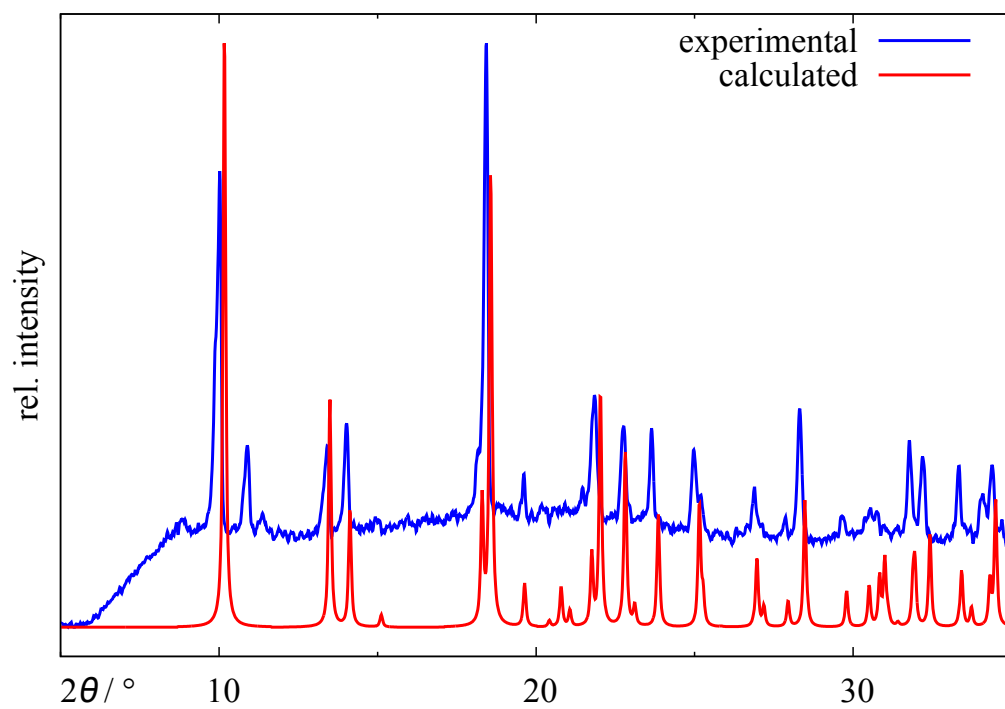

Figure 3: Experimental (blue) and calculated (red) powder diffractogram of **2a**.

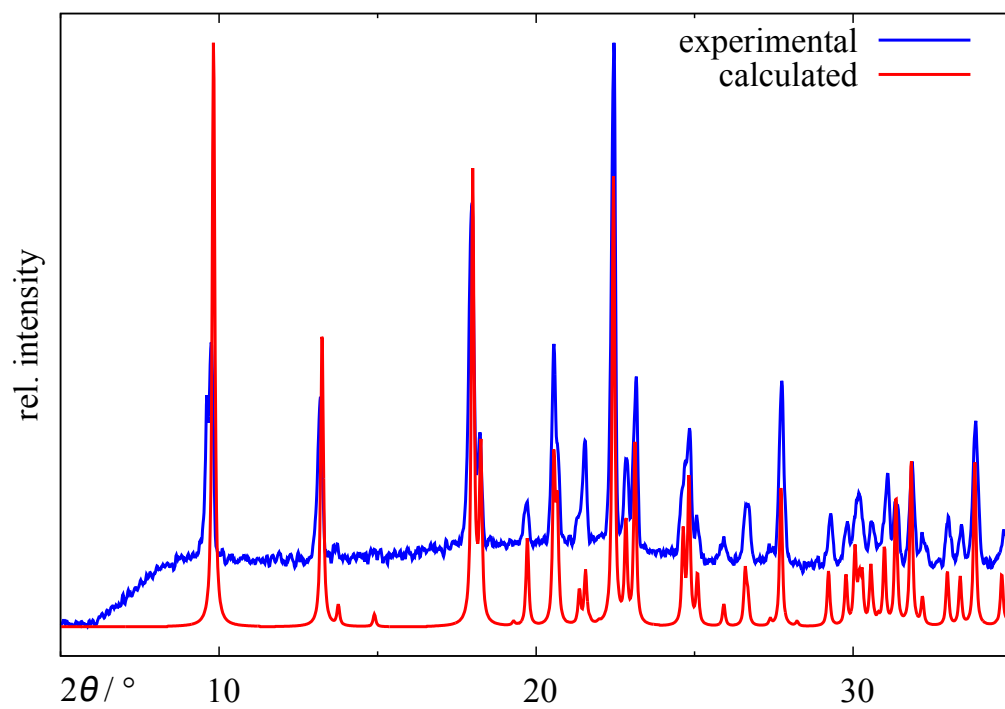

Figure 4: Experimental (blue) and calculated (red) powder diffractogram of **2b**.

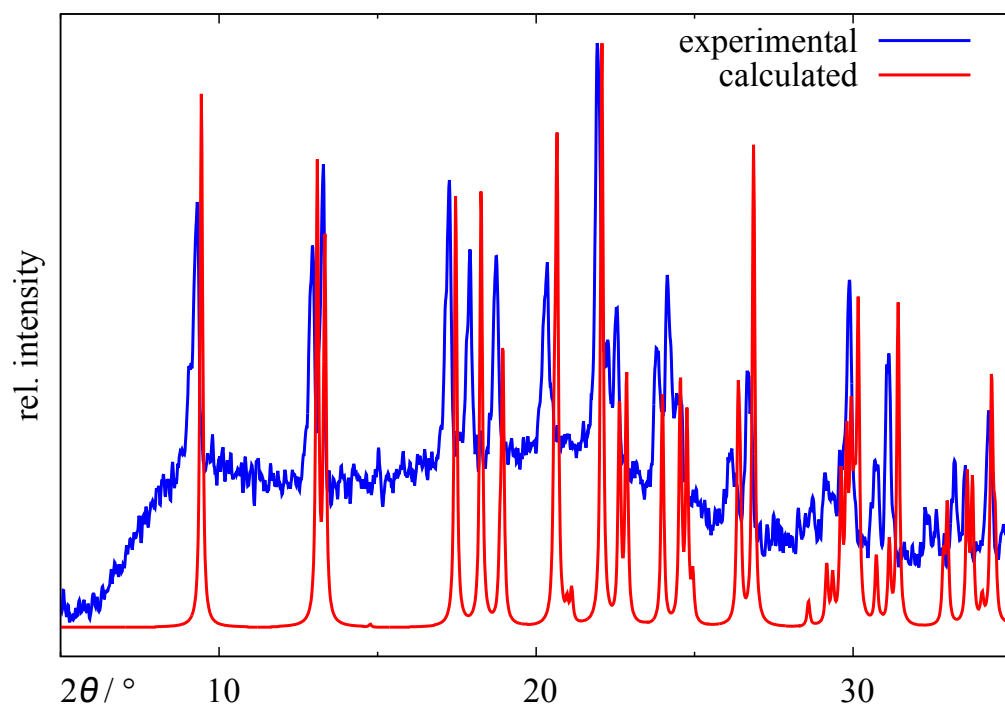

Figure 5: Experimental (blue) and calculated (red) powder diffractogram of **2c**.
