

# IUCrJ

**Volume 1 (2014)**

**Supporting information for article:**

**Do we see what we should see? Describing non-covalent interactions in protein structures including precision**

**Manickam Gurusaran, Mani Shankar, Raju Nagarajan, John R. Helliwell and Kanagaraj Sekar**

Metal: MN 239 . Coordination Number: 6. B Value: 6.5.

**Figure S1** Screenshot of the MESPEUS view of the Mn site in concanavalin A (PDB entry 1nls). Note the truncation of the real precision of the metal ligand distances (three decimal places), which is only displayed to two decimal places.
