

STRUCTURAL SCIENCE  
CRYSTAL ENGINEERING  
MATERIALS

**Volume 72 (2016)**

**Supporting information for article:**

**Effect of Al and Ca co-doping, in presence of Te, in  
superconducting YBCO whiskers growth**

**Lise Pascale, Marco Truccato, Lorenza Operti and Angelo Agostino**

Figure S1 - Electrical behavior (resistance vs. temperature, R-T) and critical temperature ( $T_{c, \text{mid-point}}$ ) values of the crystal **a1**.
