

STRUCTURAL SCIENCE  
CRYSTAL ENGINEERING  
MATERIALS

**Volume 74 (2018)**

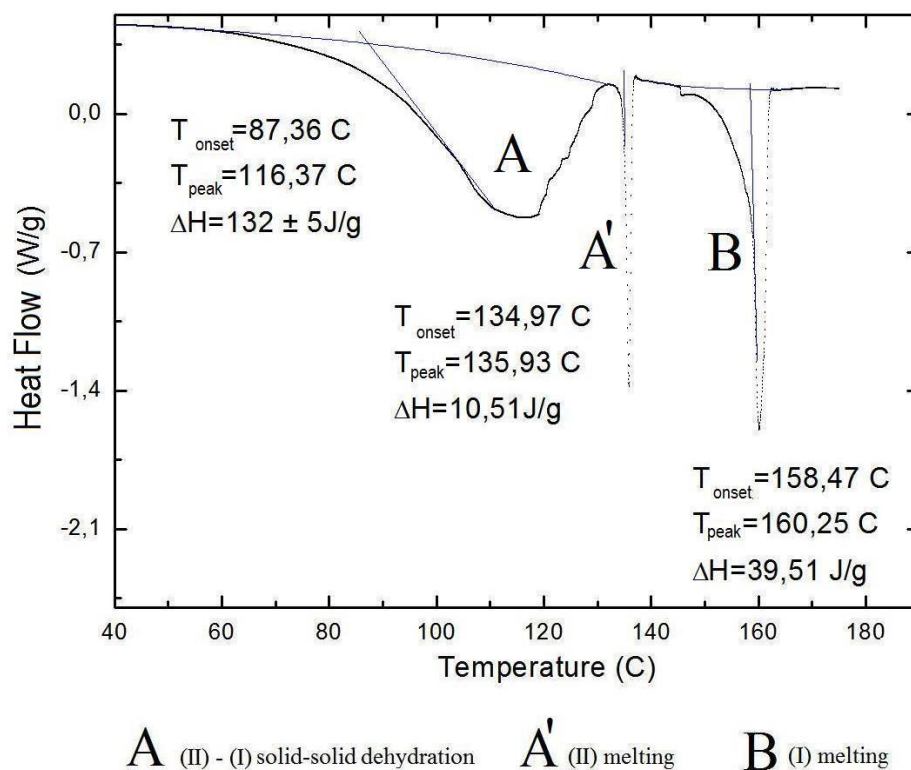

**Supporting information for article:**

**A crystallographic and thermal study of pridinol mesylate and its monohydrated solvate**

**Pablo Gaztañaga, Ricardo Baggio and Daniel Roberto Vega**

**Supplementary Information****Supplementary Figure SF1**

Two typical Rietveld refinement fittings during the rehydration procedure.

**Supplementary Figure SF2**

**One of the rare cases where events A and A' could be serendipitously observed separately.**
