

STRUCTURAL
CHEMISTRY

Volume 74 (2018)

Supporting information for article:

**Construction of a three-dimensional supramolecular framework
based on an anionic coordination network and protonated organic
cations**

Qian-Kun Zhou, Lin Wang and Dong Liu

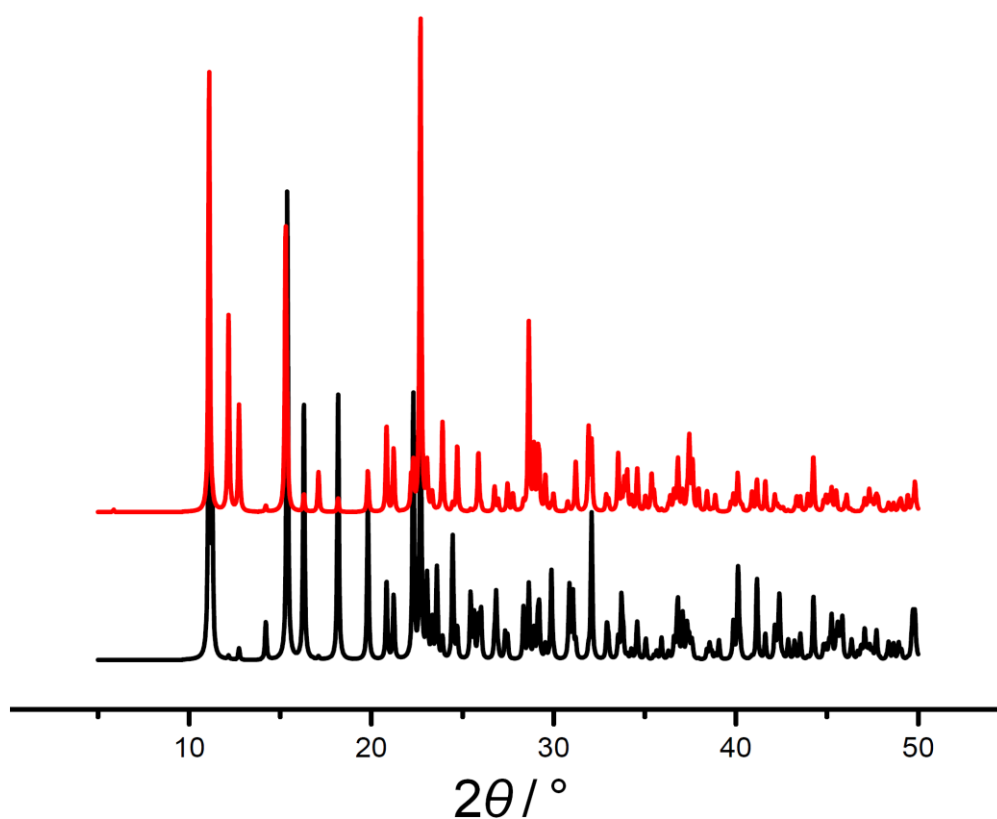

Figure S1 Experimental (red) and simulated (black) PXRD patterns of (I).

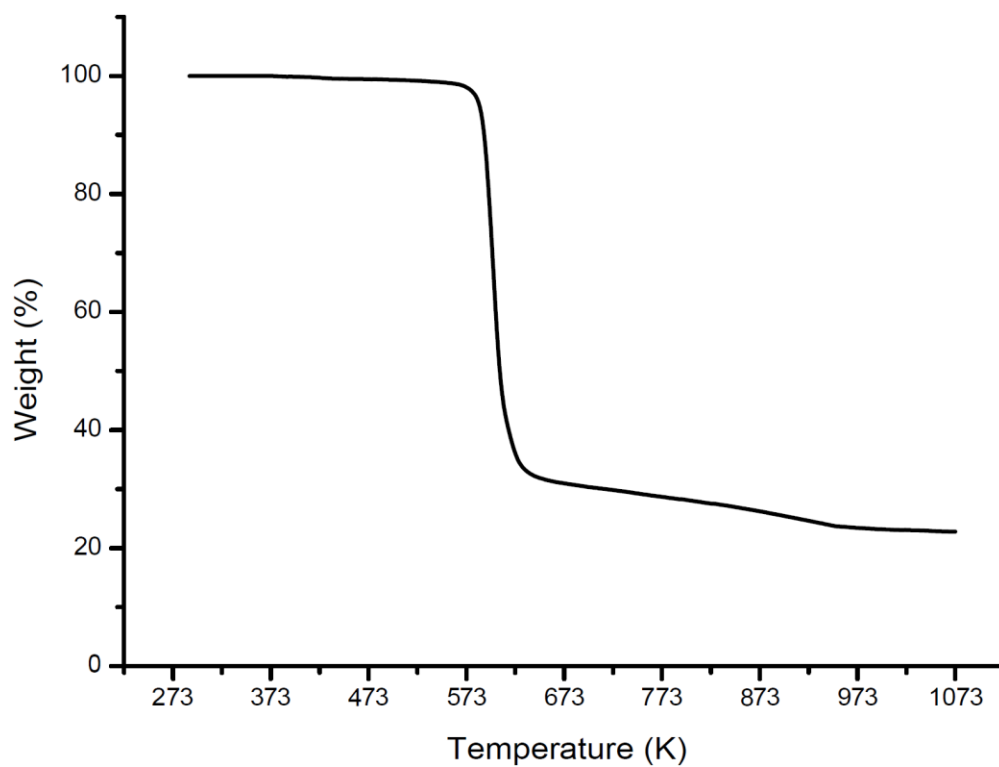

Figure S2 The TGA curve for (I).

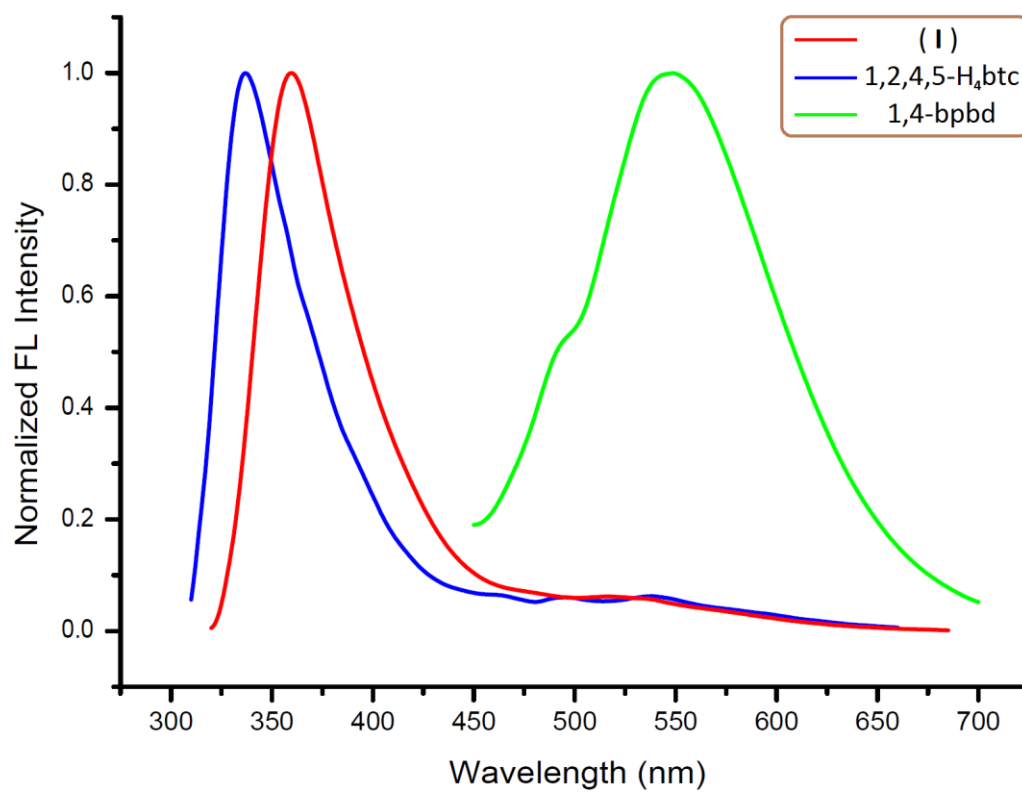

Figure S3 Normalized fluorescence spectra of (I), 1,2,4,5-H₄btc and 1,4-bpbd in the solid state at ambient temperature.
