Supporting information for article:

Large-scale crystallization and neutron crystallographic analysis of HSP70 in complex with ADP

Takeshi Yokoyama, Andreas Ostermann, Tobias E. Schrader and Mineyuki Mizuguchi

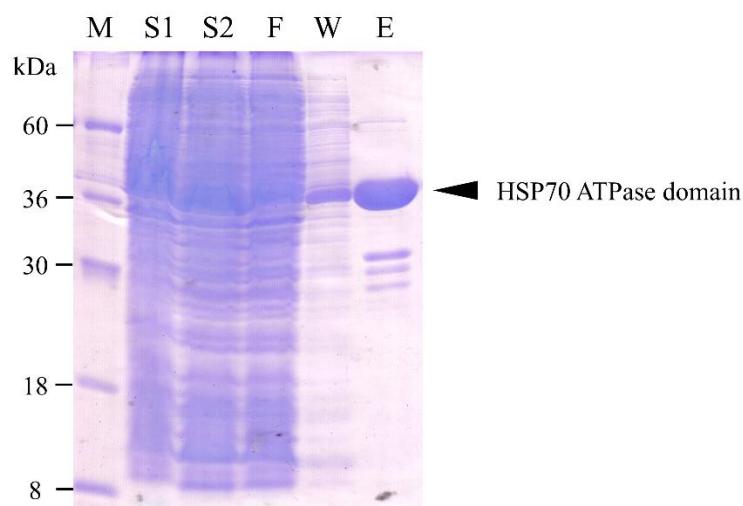

Figure S1 SDS-PAGE gel of fractions from HSP70 ATPase domain after Ni-NTA purification: M, marker; S1: cell lysate; S2: soluble fraction of cell lysate; F: flow-through; W: wash; E: elution

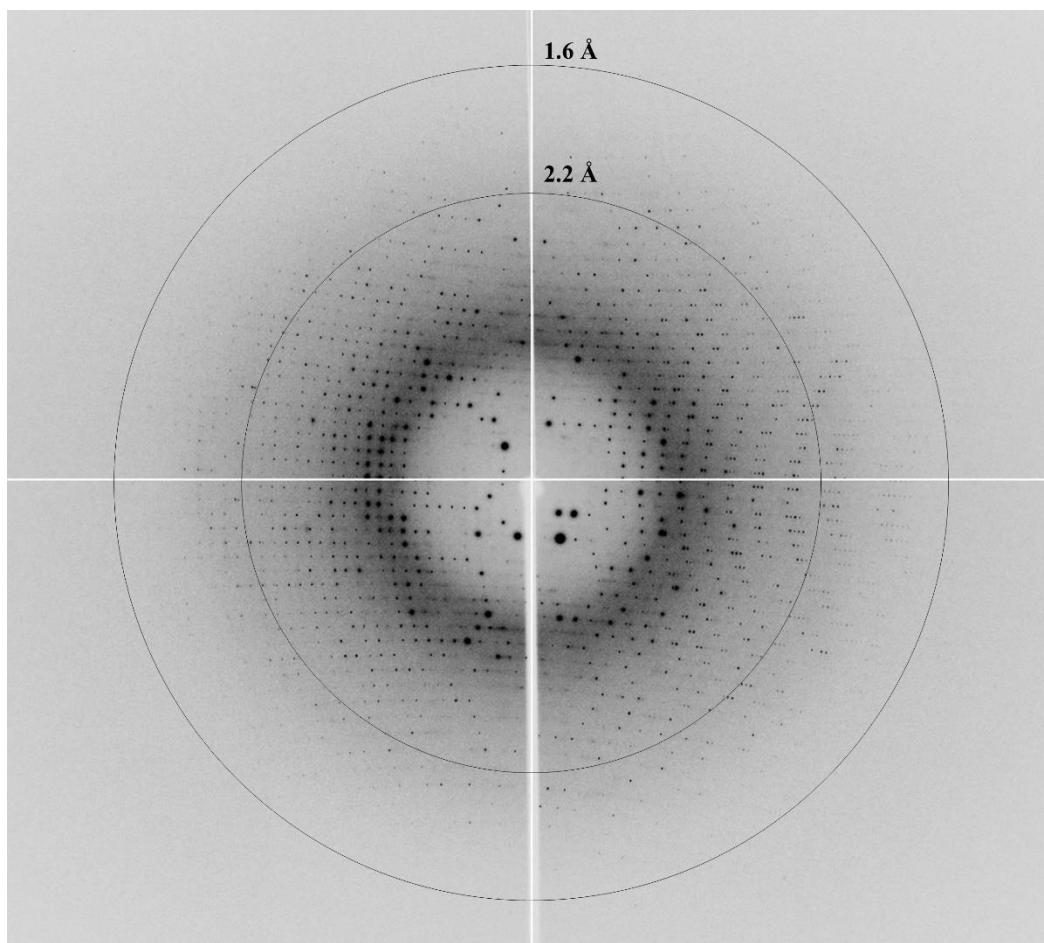

Figure S2 X-ray diffraction pattern of HSP70 in complex with ADP.
