BIOLOGY

Volume 76 (2020)

Supporting information for article:

Structural alphabets for conformational analysis of nucleic acids available at dnatco.org

Jiří Černý, Paulina Božíková, Michal Malý, Michal Tykač, Lada Biedermannová and Bohdan Schneider

Figure S1 Snapshot of the alternative graphical representation of nucleic acid structures.

The user adjustable color coded visualization allows simple highlighting for each conformer. The choice of C5' and O3' atoms for the backbone representation allows an intuitive detection of shape irregularities in the structure.
