BIOLOGY

Volume 80 (2024)

Supporting information for article:

**XFEL structure of carbonic anhydrase II: a comparative study of
XFEL, NMR, X-ray and neutron structures**

**Joshua A Hull, Cheol Lee, Jin Kyun Kim, Seon Woo Lim, Jaehyun Park, Sehan
Park, Sang Jae Lee, Gisu Park, Intae Eom, Minseok Kim, HyoJung Hyun, Jacob
E. Combs, Jacob T. Andring, Carrie Lomelino, Chae Un Kim and Robert
McKenna**

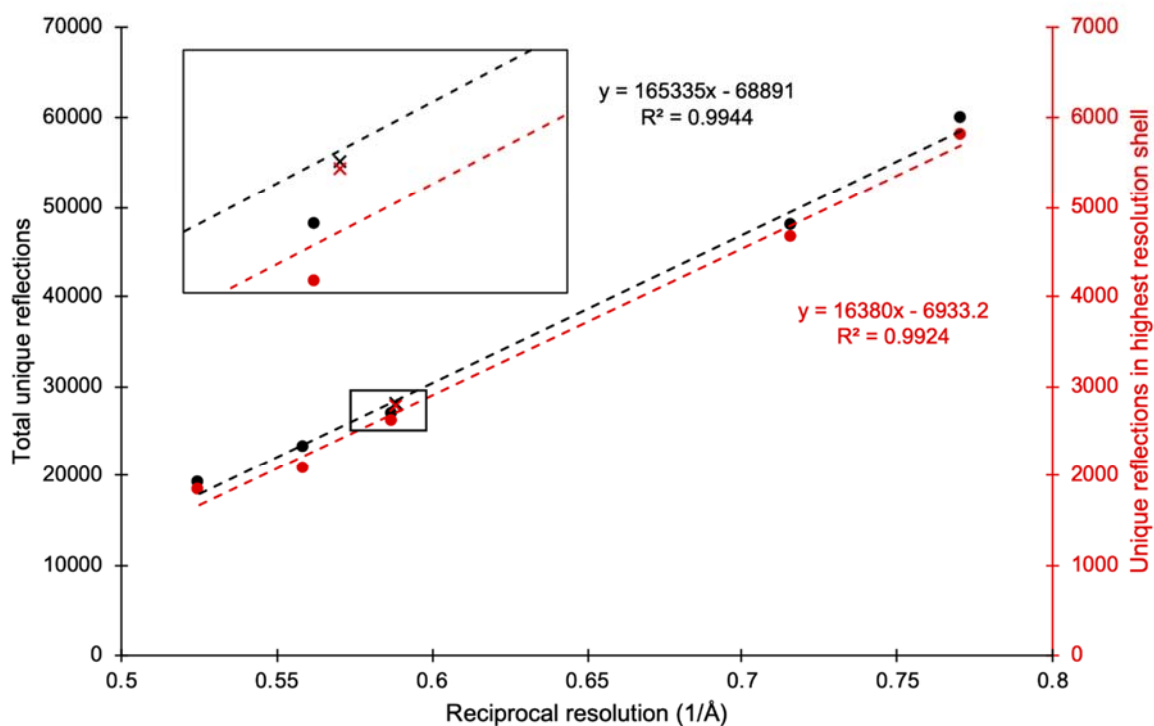

Figure S1 Resolution vs reflections for determined structures. Room temperature multi-crystal crystallography data is shown as round dots with a best fit linear line plotted through them. For XFEL the data is indicated by an x. The region boxed is shown enlarged in the insert to more easily discern the data points in the graph.
