L21-22 (in Structure Description); “we have synthesized the title compound by the reaction of *S,S*-diphenylsulfilimide with chloramine-*T* where sulfoximine found as a side product that was relatively difficult to separate by the usual column chromatographic technique. The crystal structure of the title compound, which is now successfully resolved.” > “we report herein on the synthesis and crystal structure of the title compound.” were corrected (fixed a mistake).
