Uncommon and Unusual Careers

Vaneet Kaur¹

¹Research Scholar, Himalayan University

Abstract: *The objective of this synopsis is to find out some unusual or uncommon jobs for people. And help people know various other career options available rather than those typical careers available since ages. This study will highlight some really interesting career options for students/people. It would also help people to adopt a unique/different career especially for those who are not good in academics. Results reveal that all types of students/person can continue their passion and interest even in their future and make it their own career. Also, findings show some really interesting and out of the box career available which is not yet common and familiar with people.*

Keywords: *Unusual, Uncommon, Careers, Job Satisfaction*

I. INTRODUCTION

According to Business dictionary: Job is

A group of homogeneous tasks related by similarity of functions.

When performed by an employee in an exchange for pay, a job consists of duties, responsibilities, and tasks.

This study would help to analyze and find out various other career options available for students as per their interest and passion.

It would also help people to adopt a unique/different career especially for those who are not good in academics.

II. MEANING OF A JOB

A. *Job can also be defined as*

A person's job is their role in society. A job is an activity, often regular and often performed in exchange for payment. Many people have multiple jobs, such as those of parent, homemaker, and employee. A person can begin a job by becoming an employee, volunteering, starting a business, or becoming a parent. The duration of a job may range from an hour (in the case of odd jobs) to a lifetime (in the case of some judges). An activity that requires a person's mental or physical effort is work (as in "a day's work"). If a person is trained for a certain type of job, they may have a profession. The series of jobs a person holds in their life is their career. The first job ever created was probably hunting or Foraging.

B. *In order to be capable of doing a job a person :*

- 1) Must possess minimum academic qualifications required
- 2) Must be passionate for his/her job
- 3) Must be dedicated and serious towards his/her job
- 4) Must understand the importance of his/her job
- 5) Must realise the value and worth of money
- 6) Must be responsible

In Order to survive in today's tough world, it is very important to do something and earn.

From ages people have been working and earning for their living.

JOB , is the way through a man and woman can earn his living status and improve their skills. it is the main part of every human to work with any organization for earn the money and spend their living things

III. IMPORTANCE OF A JOB

A. *Essentiality and importance of job in a nutshell can be said as:*

- 1) Fetches money for decent living,
- 2) Gives social status,
- 3) Provides recognition, respect and identity in the society
- 4) Fulfill one's dreams and aim.
- 5) Provides medium of earning and livelihood
- 6) Provides a platform to showcase one's hidden talent as well (at times).
- 7) Makes a responsible and an accountable person

- 8) Helps individuals to learn new things every day.
- 9) Constant introspection of oneself and one's potential

IX. CONCLUSION

As quoted by Newly elected president of the United States, Mr. Donald Trump- "Without you don't have energy and without energy you have nothing". This clearly explains that one needs to have passion, zeal and spirit while selecting a career for themselves. There are many options available for students after their college. Therefore, pursuing one's passion into career is now not difficult. Career options have expanded and are now available in almost every field. Unless, typical stereotype careers available for centuries. If a person takes up his/her passion into career, then he/she would certainly become more focus, serious and passionate about the job.
