As always, the enemies of Mujahideen are trying to avert the results of the 13 year jihad according to their wishes, once again they raised the question of a transitional government in which a well-known communist, Fazel Haq Khaliqyar would be included.

Indeed, this is not the only time which they wanted to test the Afghan Mujahideen by putting forward such "absured question". But, as their habit, to know the reaction of Mujahideen, they many times evaluated, Zahir Shah, the ex-King and some other westernized people who were living in the european countries. All on their turns were foiled and rejected by Mujahideen.

From the very beginning, the stance of Mujahideen is clear as the sunshine. They always rejected Intra-Afghan negotiation and stressed on set-up of an Islamic Government in Afghanistan which the majority of Afghans want that.

Infact, the recent Russians proposal for a broad-based government in Afghanistan including, Khaliqyar, the premier of puppet regime is another conspiracy aimed to safeguard their stooges in this country. But, the Russians must understand it clearly that the Afghan nation will not forgive those communists like Khaliqyar from the accountability who killed and injured millions of innocent Afghans and put into the prisons a considerable number of others.

For their safety, these communists have only one way infront of them that is, they should take advantage of the Mujahideen general amnesty and surrender themselves to them without any condition. Other wise, they themselves will be responsible if they are captured by Mujahideen during fighting.

On the other hand, Russians recent proposal regarding a transitional government in Afghanistan is another interference in the Afghanistan an internal affairs besides its military aids to the puppet regime. This sort of giving advice, actually by Russians and any other foreign countries is tantamount to interference in the internal issues of Afghans.

It may be noted that, there is no difference between Najib and Khaliqyar. They both are the communist leaders and birds of the same feather. As the acceptance of the role of such persons in the future of Afghanistan would be an act of foolishness on the part of Muslims and Mujahideen.

It must also be mentioned that the people of Afghanistan have the only right to decide about their future, not outsiders. No government will be acceptable to them except Mujahideen's one. Because, ex-King Zahir Shah and other communists were experienced in Afghanistan traitors and the destroyers of Afghanistan. Now, this will be the turn of Mujahideen who will respond and accomplish the wishes of the Afghans. That is why, the majority of the people of Afghanistan backed Mujahideen in their 13 year Jihad.
