Detection and molecular analysis of three exotic auger beetles of the genus *Sinoxylon* Duftschmid, 1825 (Coleoptera: Bostrichidae) intercepted in Italy

Polish Journal of Entomology, Volume 88, Issue 1, pages 1–13
(10.2478/pjen-2019-0001)

In the first paragraph of the Introduction is:

“The bostrichid genus *Sinoxylon* contains approximately 52 species, all of which are native to Asia, Africa and southern Europe, where are typically not considered primary pests (Borowski & Węgrzynowicz 2007)”.

It should be as follows:

“The bostrichid genus *Sinoxylon* contains approximately 52 species, all of which are native to Asia, Africa and southern Europe (Borowski & Węgrzynowicz 2007), where are typically not considered primary pests (Chase et al. 2012)”.
