APPENDIX 14

Partial List of Publications Referencing i-Tree Tools

The following list of publications have either used or made reference to i-Tree or precursor tools (UFORE and STRATUM). This list was developed by searching Google scholar and the i-Tree website as of November 2017, and adding new references as they are found post 2017. The list is not comprehensive and includes over 900 references. Other articles can be found in the Literature Cited section.

- 202020 Vision. 2014. Where Are All the Trees? An Analysis of Tree Canopy Cover in Urban Australia. 56 p. <http://202020vision.com.au/help-hub/the-research-hub/detail/?id=1868>
- Abd-Elrahman, A., M.E. Thornhill, M.G. Andreu, F. Escobedo. 2010. A Community-based Urban Forest Inventory using Online Mapping Services and Consumer-grade Digital Images. *International Journal of Applied Earth Observation and Geoinformation*, 12(4): 249–260. <https://doi.org/10.1016/j.jag.2010.03.003>
- Abood, M.M. 2018. i-Tree Landscape: A Case Study in Best Practices for Education and Dissemination for Multiple User Groups. *DePaul Discoveries*, 7(1): art. 8. <http://via.library.depaul.edu/depaul-disc/vol7/iss1/8>
- Acosta Soto, M.F. 2010. Revisión de los Modelos CITYgreen, i-tree Tools ECO y i-Tree Tools Streets, como Herramientas para la Cuantificación de los Servicios Ecosistemicos Prestados por el Arbolado Urbano de Bogotá. Bachelor's thesis, Pontificia Universidad Javeriana. 99 p. <https://repository.javeriana.edu.co/bitstream/handle/10554/9862/tesis77.pdf?sequence=1>
