Updates of Current Issue

Dr. Sachin B. Ingle (Editor In Chief, IJCRR)

Professor, Department of Pathology, MIMSR Medical College, Latur, MS, India

Dear, Readers seasons greetings! Hope you all are safe in this COVID-19 worldwide pandemic. I am glad to share all; IJCRR is now becoming popular amongst Medical Fraternity with good response since last 4 months. This issue contains many articles, case reports of interest for the global biomedical readers. The article by **Dhirajkumar chopra** et al. is very informative which demonstrated that lipid-based solid dispersion technology can lead to improve the bioavailability of poorly soluble drugs like Azilsartan medoxomil significantly. A mixture of vegetable fats as a potential raw material for bakery is useful and beneficial for the health of the common population nicely written by **Diurayeva** et al. The article by **Dr Gajanan** on ECG and physical examination is fruitful for Postgraduates in medicine and medicine doctors. Article by **Arijit singh** on cardiac valve surgery is very important for cardiothoracic surgeons and cardiologists. The research article on antidiabetic property of “**Gliricidia sepium**” leaves useful for diabetic patients. Anaesthesia article by **Dr. Dnyanada Deshmukh** in supratentorial craniotomy is useful for young dynamic neuroanesthesia fellows. Article Application of **3 dimension printing** in biomedical field is very useful for global biomedical researchers. It is not possible for me to cover all of them in my note, but I am sure that our young researchers and especially postgraduates, doctors would take the maximum benefit out of them. For a high IF and Pubmed, we need to have more good-quality original articles with high citation values. All senior medical field members are urged to submit their prime research work and consider IJCRR as their first-choice journal. Further, suggestions of any type, especially related to any included columns, are most welcome.

The articles will help postgraduates in their outlook to problematic cases. I Sincerely urge all medical faculties to choose this journal for your forthcoming research papers. My sincere appeal to authors that though we have achieved Scopus indexing it is just a beginning we have to keep up our moto of journal for pubmed / Medline with skillful execution, dedication hard work & increasing our citations.

In this COVID – 19 pandemic , stay home stay safe take care”.. any research articles on Covid-19, prevention and management are most welcome , will be accepted on priority basis, provided it should be innovative and useful in this Corona – Pandemic.

Once agains, Thank you all contributors , Editors, Reviewers and the publisher – Radiance Research Academy team , Nagpur (M.S.) India. Best wishes for the Future prospectus !!

With Best wishes!!

Professor Dr. Sachin B Ingle
