Visual Editorial: AJUR Authors 2002 - 2008

C. C. Chancey, Editor
American Journal of Undergraduate Research
University of Northern Iowa
Cedar Falls, Iowa 50614-0150 USA

This issue completes this journal's sixth year of operation. Eighty-seven undergraduate research papers, with 125 undergraduate authors, have appeared in these pages in that time. The graphic below counts off the papers in order of appearance, starting with volume 1, number 1 in June 2002—counting off the authors would have required much more space. Eighty-five percent of the published papers have come from the US; fifteen percent from outside the US: Canada, Austria, Russia,

Iran, India, and Nigeria.

As we begin our seventh year of publication, I wish to acknowledge the great help of AJUR's disciplinary editors and reviewers in seeing that the journal reached this milestone. A publication such as this could not operate without the assistance of these administrators, professors and researchers who voluntarily give time and effort to promote undergraduate research and AJUR.

Thank you, colleagues!
