SURVEY RESEARCH CENTER
LOS ANGELES, CALIFORNIA 90024

February 1973

Dear Los Angeles Area Resident:

Seven million people live in Los Angeles County. We work at different jobs, attend various churches, and live in different communities. We also have different opinions about important national and local issues, and about the problems facing the County and our own communities. Because we feel your opinions are important, the Survey Research Center conducts a County-wide survey twice each year to give citizens the opportunity to make their views known.

Your household is one of 1600 we have selected to participate in the Los Angeles Metropolitan Area Survey (LAMAS). It is part of a scientifically selected sample of Los Angeles County prepared from lists of addresses in each neighborhood. We will ask for your opinions on a variety of topics, such as the quality of public services, health care, and things that please or displease you about your neighborhood.

In the next few days, one of our interviewers will call at your home. Your interviewer will carry an identification card like the one shown below; it will bear the same name as the example. You will be asked for some information about your household, and we ask your cooperation in answering these questions in order to select the member of your household to be interviewed. Our interviewer will also be pleased to answer any questions you may have about the survey. The sheets accompanying this letter will give you some information about the Survey Research Center as well as a sample of findings from previous Los Angeles Metropolitan Area Surveys which you may find interesting.

I wish to assure you that opinions and information you provide will be held in strictest confidence and will be published only in the form of statistical summaries such as the sample attached. No individuals or families will be identified. However, to present an accurate picture of Los Angeles County and its people--including your neighborhood--the cooperation of each household is most important.

Let me thank you in advance for your cooperation. Your interviewer is:

Sincerely,

Douglas Scott

Good morning/afternoon/evening. I'm from the UCLA Survey Research Center. You may have received a letter from our Center telling you about the survey we are doing in Los Angeles. We are interested in finding out how people in the Los Angeles Metropolitan Area feel about the community, what problems there are and what is needed for the future. The information we collect will be written up in reports for local officials and in the local newspapers. Your opinions are very important because you have been chosen scientifically to represent hundreds of other people in Los Angeles. The more people who cooperate, the more successful we can be in reporting the needs of all the people in this city. EVERYTHING YOU TELL US WILL BE STRICTLY CONFIDENTIAL. YOUR NAME WILL NOT BE CONNECTED IN ANY WAY WITH THE FINDINGS OF THIS IMPORTANT STUDY.

A3. First, I would like to make a list of the persons 18 years old or over, who live here as members of your household. This will tell me which adult I am to interview. (AFTER RECORDING INFORMATION IN "A," ASSIGN NUMBERS IN "E" WITH OLDEST MALE = 1, SECOND OLDEST MALE = 2, ETC. AFTER ALL MEN ARE NUMBERED, CONTINUE WITH WOMEN BEGINNING WITH OLDEST TO YOUNGEST.) For the last part of this section, then, would you give me some information on those persons under 18 years old who are living here as members of your household? Please begin with the youngest person.
