DATA DICTIONARY

Census of Population and Housing, 1980 [United States]: Summary Tape File 3F, School Districts

This Data Dictionary was created by the SSDC staff from the printed technical documentation (codebook), CENSUS OF POPULATION AND HOUSING, 1980: SUMMARY TAPE FILE 3F TECHNICAL DOCUMENTATION (Washington, D.C. 1983).

The purpose of the data dictionary is to provide users with a searchable list of all geographic, population, and housing variables from the associated STF3F data file. User notes from the National Center for Educational Statistics (NCES) have been added to this data dictionary. These notes document geographic variables that are not documented in the codebook and include additional details about county components of school districts. The source of these notes is ICPSR.

Users can search this file by keyword(s), note the associated VARIABLE NAME and subset/convert variables by choosing the same variable names from the drop-down variable list on the SSDC STF3F data extraction Webpage.

Users should note that the printed codebook contains extensive footnotes that are not part of this data dictionary. These 59 footnotes are essential for understanding the STF3F table data definitions, calculations, and coding.

UCSD staff can address questions about these data to the SSDC staff (ssdc@ucsd.edu).

FILE STRUCTURES

The record layout for the school district summary tape files (STF 1F and STF 3F) is identical to the Census summary tape files as shown in the technical documenation. However, there are some data items that have been added to Census "filler" fields. They are as follows:

STF 1F

DATA ITEM	RECORD POSITION COLUMNS	DATA TYPE	DESCRIPTION
SCHOOL TYPE	30	ALPHA	E=ELEMENTARY S=SECONDARY U=UNIFIED
STLEAID	185-204	ALPHA-NUMERIC	STATE IDENTIFICATION FOR SCHOOL DISTRICT
CITY	226-238	ALPHA	
STATE ABB	239-240	ALPHA	STATE POSTAL CODE
ZIP	241-245	CHAR	ZIP CODE
NCES ID	246-252	CHAR	NCES SCHOOL DISTRICT ID

STF 3F

DATA TYPE	RECORD POSITION COLUMNS	DATA TYPE	DESCRIPTION
SCHOOL TYPE	30	ALPHA	E=ELEMENTARY S=SECONDARY U=UNIFIED
STLEAID	185-204	ALPHA-NUMERIC	STATE IDENTIFICATION FOR SCHOOL DISTRICT
CITY	11620-11632	ALPHA	
STATE ABB	11633-11634	ALPHA	STATE POSTAL CODE
ZIP	11635-11639	CHAR	ZIP CODE
NCES ID	11640-11646	CHAR	NCES SCHOOL DISTRICT ID

If merging of the STF 1F and 3F file is required, the data element (NCES ID) should be used.

RECORD TYPE

The record layout or data dictionary defines positions (10-11) as SUMRYLVL which identifies the geographical level of the current record. There are only two record levels on the school district data tape. They are:

40=SCHOOL DISTRICT
41=COUNTY COMPONENT OF SCHOOL DISTRICT

In some States, school districts may include areas in two or more counties. In such cases, county component summary records have been compiled and assigned sumrylvl = 41. Such records will follow the school district summary record (sumrylvl = 40) on the file and will contain the school district ID number in the NCES school district ID field. The county name will appear in the area name field, however. There will be as many county component records for each such school district as there are counties with areas included within the school district boundaries. If any analysis of school district summary data is undertaken, it must be remembered that the sumrylvl = 41 records must be excluded from the analysis.

In some States there are secondary school districts that overlap elementary school districts. Even though these school districts may cover the same areas, they are treated as separate entities, hence separate summaries are provided for each. In such States, the sum of any variable for all school districts in the State will exceed the State total of such variable because of the overlapping.

Minor inconsistencies may be observed in some of the school district summaries. Many school districts intersect census blocks, block groups, and enumeration districts. In such cases, it was necessary to apportion the data among the school districts from the block group and enumeration district summaries. Apportioned values were carried to two decimal places for all split block groups and enumeration districts and then summed to school district totals and rounded to whole numbers at the school district total level. The same variable e.g., population, will be found in several distributions such as by age, by race, by sex, etc. If the sum of a distribution if found and compared to the sum of another distribution, there may be a minor difference in the sums due to the rounding that took place and the apportionments that were made. These differences are due to rounding and should not be considered as tabulation errors.

In some States, not all of the land area of the State is enclosed within school district boundaries. Indian reservations and military installations are frequently not covered by school districts. In such cases, all of the data for such areas were summarized into a State "residue" record that was given a school district ID number of "66666".

This residue record will appear at the end of the file and should be eliminated from any analysis of school district summary data.

Although Hawaii is a single school district State by special arrangement, census data were summarized for each of the school attendance areas in the State. The summary records that are included within the Hawaii file are those of the school attendance areas that were described by the State education agency.

Another special arrangement was made for the New York City school district. There are a number of community school districts that form the New York city school district. Separate summaries were compiled for these sub-districts and were assigned ID numbers in the 50000 series within the New York State code. These summary records should also be excluded from any analysis of school district data.

VARIABLE LABEL	VARIABLE NAME	COL BEGIN	COL END	TOTAL COLS
GEOGRAPHY				
IDENTIFIER FOR SUMMARY FILE	FILEID	1	5	5
Note: Identifier=STF3F				
SUMMARY LEVEL	SUMRYLVL	10	11	2
Note: Summary Level 40 contains a summary for the school district. Summary Level 41 contains a summary for counties or county portions within a school district.
