Data and Code for “Trust and CO2 Emissions: Cooperation on a Global Scale”

Ara Jo
Stefano Carattini

May 2021

The replication materials are in Stata files. The folder contains the following data files:

- JEBO_MICRO_DATA.dta: individual-level data used to generate measures of inherited trust for the macro-level analysis.
- JEBO_MACRO_DATA.dta: country-level data used for the macro-level analysis.
- Figure1.dta & Figure3.dta: variables used to generate Figure 1 and 3, respectively.

And the following do files:

- JEBO_MICRO.do: produces Table 1 and 2 as well as generates measures of inherited trust with several specifications explained in the paper.
- JEBO_MACRO.do: produces all other tables as well as Figure 2.
- Figure_1_3: produces Figure 1 and 3.
