
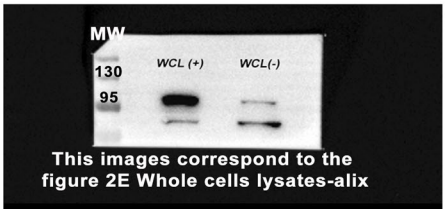
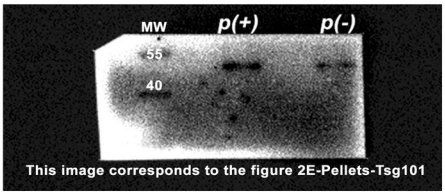
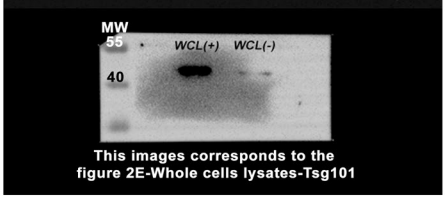
This image corresponds to the figure 2E- pellets- alix



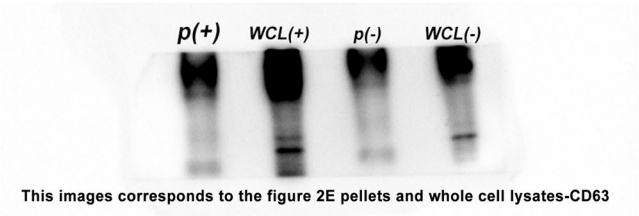
This images correspond to the figure 2E Whole cells lysates-alix



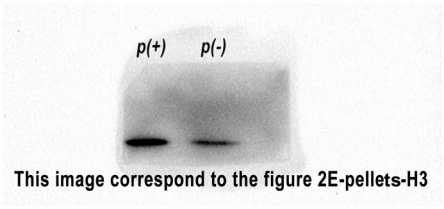
This image corresponds to the figure 2E-Pellets-Tsg101



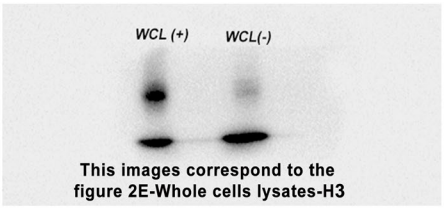
This images corresponds to the figure 2E-Whole cells lysates-Tsg101



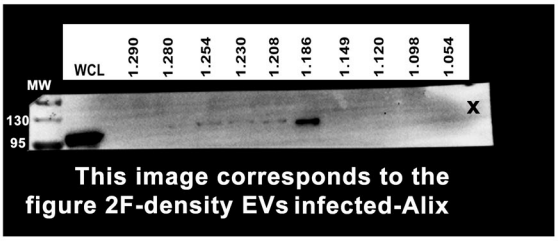
This images corresponds to the figure 2E pellets and whole cell lysates-CD63



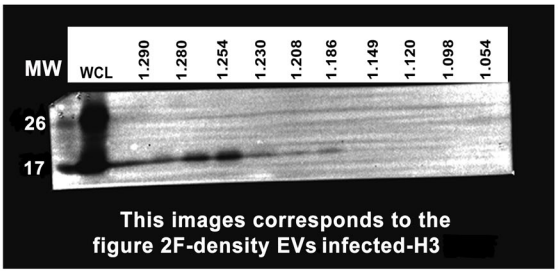
This image correspond to the figure 2E-pellets-H3



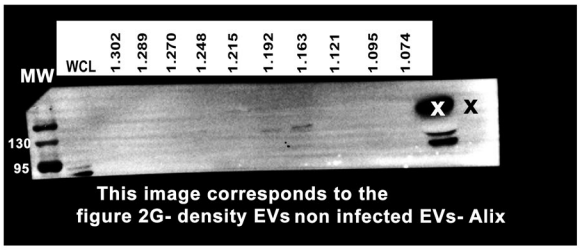
This images correspond to the figure 2E-Whole cells lysates-H3



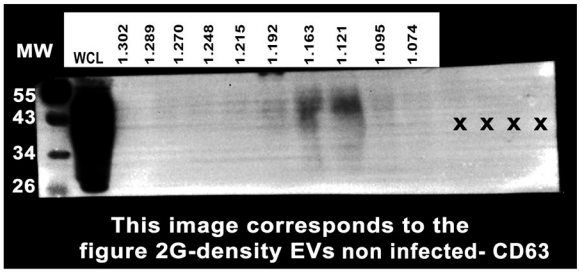
This image corresponds to the figure 2F-density EVs infected-Alix



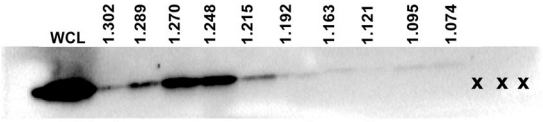
This images corresponds to the figure 2F-density EVs infected-H3



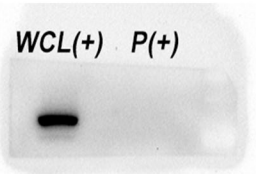
This image corresponds to the figure 2G- density EVs non infected EVs- Alix



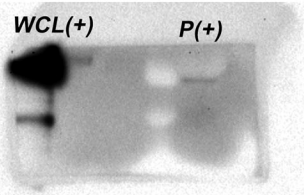
This image corresponds to the figure 2G-density EVs non infected- CD63



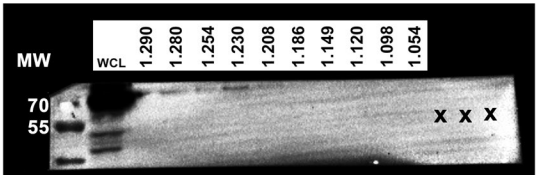
This image corresponds to the figure 2G density EVs non infected-H3



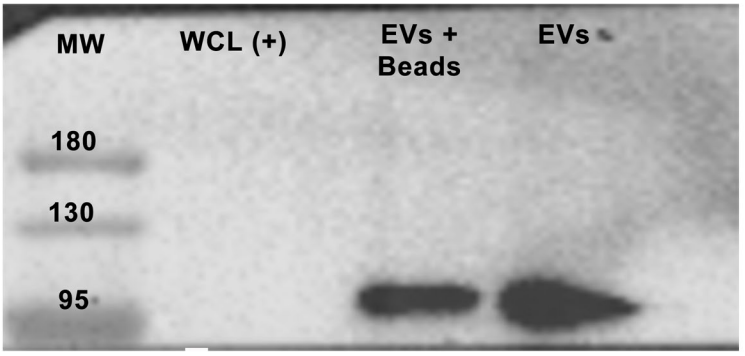
This image corresponds to the figure 3A-
whole cell lysates and pellets of infected cells -NS5



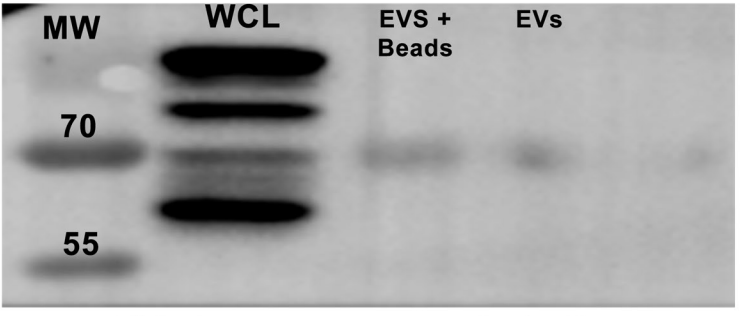
This mages corresponds to the figure 3A-
Whole cells lysates and pellets of infected cells -NS3



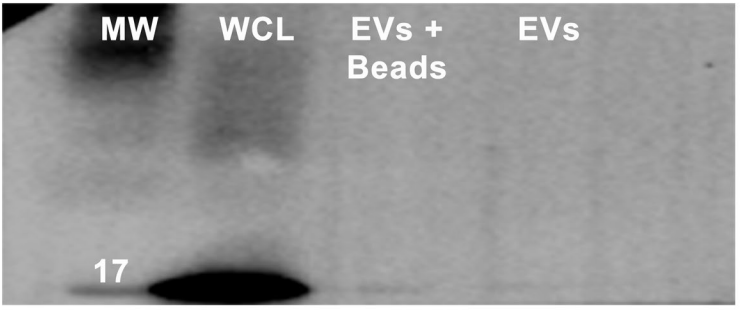
This images corresponds to the figure 3B-
density EVs infected cells-NS3



This image corresponds to the figure supple 1- EVs IP- Alix



This image corresponds to the figure supple 1- EVs IP- NS3



This image corresponds to the figure supple 1- EVs IP- h3
