This is a file from the Wikimedia Commons. Information from its **description page there** is shown below.

Commons is a freely licensed media file repository. You can help.

This is a faithful photographic reproduction of a two-dimensional, public domain work of art. Such reproductions are in the **public domain in the United States**. In other jurisdictions, re-use of this content may be restricted; **see Reuse of PD-Art photographs for details.** The work of art itself is in the public domain for the following reason:

*This image (or other media file) is in the **public domain** because its copyright has **expired**.*

*This applies to Australia, the European Union and those countries with a copyright term of **life of the author plus 70 years**.*

You must also include a United States public domain tag to indicate why this work is in the public domain in the United States. Note that a few countries have copyright terms longer than 70 years: Mexico has 100 years, Colombia has 80 years, and Guatemala and Samoa have 75 years, Russia has 74 years for some authors. This image may *not* be in the public domain in these countries, which moreover do *not* implement the rule of the shorter term. Côte d'Ivoire has a general copyright term of 99 years and Honduras has 75 years, but they *do* implement the rule of the shorter term.

This file has been identified as being free of known restrictions under copyright law, including all related and neighboring rights.
