**Readme.txt**

**September 2012**

The following provides basic information on the creation of the final datasets and describes the do files that produce Tables 1-6 and Appendix tables B.1 and B.2 for the paper:

**Dinkelman, Taryn and Claudia Martínez A. "Investing in Schooling in Chile: The role of information about financial aid for higher education", *The Review of Economics and Statistics*, May 2014, Vol. 96, No. 2, Pages 244-257**

The data are in Stata 12.0 format. Questions can be referred to
Taryn.L.Dinkelman@Dartmouth.edu

**********

SYSTEM REQUIREMENTS

**********

The do files have been tested on a Windows XP machine running Stata SE 12.0

/data contains all final stata DTA files used as input in DO files

/syntax analysis.do performs all operations to reproduce paper results

/output collects all log files and output files

**********

DATASETS AND DO FILES

**********

1) chileexpmt_final.dta: anonymized student-level dataset, merged with school data and parent-level responses
2) chileexpmt_withadmindata_final.dta: anonymized student-level dataset, merged with administrative data
3) Analysis.do and the resulting log file make reference to the tables and model specifications used so that each number included in the tables can be found
