CODEBOOK:
Legislator Success in Fragmented Congresses in Argentina.

Ernesto Calvo, University of Maryland, 2014

This Codebook provides descriptive information on the main dataset variables of the book "Legislator Success in Fragmented Congresses." The original project description was provided by the *Secretaria of Informacion Parlamentaria*, Argentine House of Representatives. The Data was processed by Ernesto Calvo (University of Maryland) and Inaki Sagarzazu (Glascow University). The data should be cited as:

- Calvo, Ernesto and Iñaki Sagarzazu. 2014. Argentine Legislative Dataset 1.1. April, 2014. http://www.gvpt.umd.edu/calvo/ Legislators Success-Replication Material.html.

GENERAL VARIABLES

```
------------------
   1. Congress:
      ID that uniquely identifies 12 Congresses from 1983 through 2007.
      Congress (1-12)
------------------

                 type:  numeric (float)

                range:  [1,12]                       units:  1
        unique values:  12                       missing .:  0/177319

                 mean:   7.70369
            std. dev:   3.09046

          percentiles:        10%       25%       50%       75%       90%
                               3         5         8        10        12

------------------
   2. id_rep: Unique ID by Representative of the main sponsor of the bill.
      id_Representative
------------------

                 type:  numeric (int)

                range:  [1,1662]                     units:  1
        unique values:  1597                     missing .:  4813/177319

                 mean:   807.614
            std. dev:   485.873

          percentiles:        10%       25%       50%       75%       90%
                              145       382       807      1241      1476

------------------
   3. id_part: Party ID describing the party of the main sponsor of the bill
      (fparty)
      group(partido)
------------------

                 type:  numeric (int)

                range:  [1,143]                      units:  1
        unique values:  132                      missing .:  9786/177319

                 mean:   23.4943
            std. dev:   37.5446

          percentiles:        10%       25%       50%       75%       90%
                               2         2         4        35        90
```

```
-------------------
   4. Provincia: Province of the main sponsor of the bill.
      Province
-------------------

                 type:  string (str20), but longest is str12

         unique values:  25                       missing "":  6324/177319

              examples:  "BUENOS AIRES"
                         "CHUBUT"
                         "LA PAMPA"
                         "SALTA"

               warning:  variable has embedded blanks

-------------------
   5. fecha_str: Date of introduction of the bill.
      Date String
-------------------

                 type:  string (str10)

         unique values:  2696                     missing "":  25460/177319

              examples:  "03/04/2001"
                         "09/08/1990"
                         "16/08/1995"
                         "23/09/1998"

-------------------
   6. Fecha: Date of introduction of the bill (Data format).
      Date the Bill was Entered in the Chamber
-------------------

                 type:  numeric daily date (float)

                range:  [8750,17448]                 units:  .1
       or equivalently:  [16dec1983,09oct2007]       units:  days
         unique values:  3528                     missing .:  0/177319

                 mean:   14012.6 = 13may1998 (+ 15 hours)
            std. dev:   2249.93

          percentiles:        10%       25%       50%       75%       90%
