DATA REPORT

1. Project

The database is part of the project 'Analyzing EU Policies: The Transposition of Directives' sponsored by NWO. Participants in this project (2002-2007) were Bernard Steunenberg (Leiden University), Kees van Kersbergen (Nijmegen University and later VU), Frans van Waarden (Utrecht University), Antoaneta Dimitrova (Leiden University), Markus Haverland (Nijmegen University and later Leiden University), Mark Rhinard (Leiden University), Michael Kaeding (Leiden University), Marleen Romeijn (Nijmegen University), Ieva Gange (Utrecht University) and Sara Berglund (Utrecht University). Later, Eliora van der Hout (Leiden University) and Dimiter Toshkov (Leiden University) joined the research team. The project led to various publications, some using the dataset of the project. In some publications additional information has been collected: in those cases I refer to the authors for their dataset. The current dataset is the general dataset of the project.

2. Analysis done with the following software

SPSS

3. Available files

1. Data file SPSS: TRANS_database_complete.sav

4. Comments

File [1] includes the labels of the various variables.
