CLOSED CLAIM RECONCILIATION FORM 26

ADDITIONAL INFORMATION 29

Background

This is the twentieth Texas Liability Insurance Closed Claim Annual Report prepared by the Texas Department of Insurance (TDI) in accordance with the provisions of §§38.159 - 38.163, Texas Insurance Code. The legislative history of this statute indicates that there was an absence of reliable information concerning liability insurance claims, related court actions and other information pertinent to the claims settlement process and the civil justice system in Texas. The reporting requirements contained in this statute provide TDI with the authority to gather liability claims information and the responsibility of compiling the data and issuing an annual report. Following the statutory distinctions, the State Board of Insurance adopted two separate forms; the short form relating to liability claims closed with bodily injury indemnity settlements over $10,000 but less than $25,000; and the long form which relates to those claims with settlements of $25,000 or more.

TDI collects the forms on a quarterly basis and reviews the forms manually and electronically to monitor data quality. Insurers submitted 9,078 reports for claims that closed in 2007. These claim reports account for over $1.2 billion in paid settlements.

Introduction

The data utilized in the preparation of this report include 9,078 commercial liability closed claims involving bodily injury settled under Texas law that were submitted for calendar year 2007 on the Quarterly Closed Claim Reports for the following lines of insurance:

- General Liability
- Medical Professional Liability
- Other Professional Liability
- Commercial Automobile Liability
- The Liability Portion of Commercial Multi-peril Insurance

The 2007 quarterly closed claim database includes claims from 308 insurance companies and 6 self-insurers. Claims included in the database have been settled or otherwise disposed of, and the insurer has made all indemnity and expense payments on the claim. These reports do not include property damage, open claims, or claims not settled under Texas law.

Payment amount in this report refers to the amount paid by the primary carrier on line 12 A.1 of the quarterly closed claim reports. Settlement amount refers to the amount paid by all parties on line 12 A.7 of the quarterly closed claim reports. The settlement amount may include payments from other insurers, the insured, excess carriers and other defendants that may not submit closed claims due to the reporting requirements.

Of the 9,078 forms available for the preparation of this report, 3,874 were short forms that are defined as claims with bodily injury settlements of greater than $10,000 but less than $25,000. Long forms accounted for the other 5,204 claims and include bodily injury settlements of $25,000 or more. Although they account for 43% of all reports, only 7% of the total payments were reported on the short forms as illustrated in Figure 1.

FIGURE 1

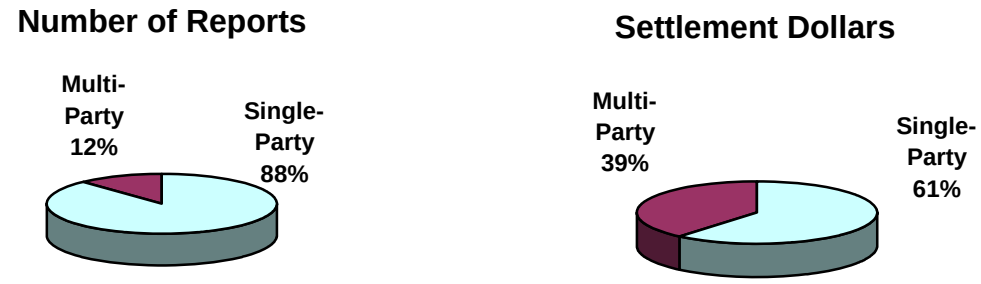
SHORT FORM VS. LONG FORM

The report differentiated between the single defendant cases (single-party) and the more complex cases that involved multiple defendants (multi-party). Single-party claims involve only payments by the reporting insurer as primary carrier and/or payments by the insured for deductibles or payments in excess of policy limits. Multi-party claims which involve payments by excess carriers or amounts paid on behalf of other defendants, account for 12% of the 2007 reports and 39% of the settlement dollars as shown in Figure 2.

Carriers report the amount they paid on a claim as well as the total known settlement amount paid to the claimant. The total settlement amount may include payments from other insurers, the insured, excess carriers and other defendants. Although single-party claims make up the majority of all claim reports, the majority of settlement dollars come from multi-party claims.

FIGURE 2

SINGLE-PARTY VS. MULTI-PARTY



Payments and Expenses

A total of $1,271,534,238 in settlements from 9,078 closed claim forms are included in this report as shown in the last line of Figure 3. One should keep in mind that the total settlement amount might be incomplete. Reports indicating involvement of other contributing parties may not have included the other contributing parties' payments in the total settlement amount.

It is also possible for a closed claim report to indicate payment by more than one contributing party; therefore, the number of claims shown on the "Total settlement" row may not equal the sum for each contributing party.

FIGURE 3

2007 CLOSED CLAIM DATA BASE SUMMARY

Contributing Parties	Claims	Amount Paid
Primary carrier	8,261	$829,895,220
Insured due to deductible	1,193	$70,548,033
Insured in excess of policy limits	12	$6,259,000
Excess carrier	155	$166,672,065
Other insured defendants	536	$185,370,839
Other uninsured defendants	44	$13,089,081
Total settlement	**9,078**	**$1,271,534,238**

Figure 4 shows the average payment amount for all claims was $91,418. The single-party average claim payment was $76,694 as compared to the multi-party average claim payment of $200,346.

FIGURE 4

THE AVERAGE 2007
COMMERCIAL LIABILITY CLAIM
SINGLE-PARTY VS. MULTI-PARTY

Average	Single-Party	Multi-Party	All Forms
Payment Amount	$76,694	$200,346	$91,418
Final Indemnity Reserve	$91,908	$264,592	$112,471
Allocated Loss Adjustment Expense	$14,317	$72,380	$21,231
Final Expense Reserve	$11,381	$64,247	$17,676
Claim Duration (Months)	18.4	26.2	19.3

It appears that the majority of payments paid by the primary carrier occur in a small number of claims. Although claims with payments greater than $150,000 comprise only 15% of claims reported, they account for over 70% of the total dollar amount of payments reported in the study. These ranges are shown in Figure 5 below.

FIGURE 5

NUMBER OF PAYMENTS BY PAYMENT RANGE

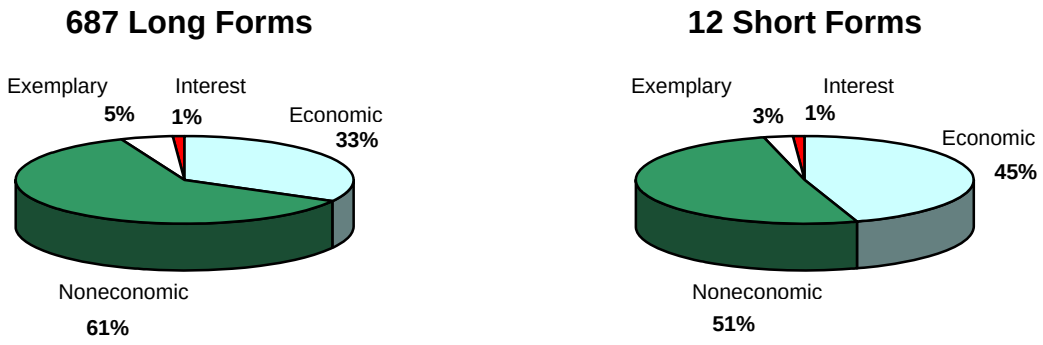
Payment Range	Single-Party	Multi-Party	Total
$10,000 and less	810	61	871
$10,001 - $24,999	3,444	90	3,534
$25,000 - $74,999	2,044	316	2,360
$75,000 - $149,999	725	206	931
$150,000 - $299,999	509	201	710
$300,000 - $499,999	211	92	303
$500,000 - $999,999	186	84	270
$1,000,000 and over	68	31	99
All Payments	**7,997**	**1,081**	**9,078**

If the settlement was $25,000 or greater, adjusters were asked for their opinions as to whether the settlement was influenced by non-economic losses, exemplary damages or prejudgment interest. For the 687 long forms that indicated the categories of non-economic losses, exemplary damages or prejudgment interest influenced the settlement of the claim, 33% of the damages were designated to economic losses, 61% to non-economic losses, 5% to exemplary damages, and 1% to prejudgment interest. These percentages are displayed in Figure 6.

On the short forms, adjusters were asked for their opinions as to whether the potential for the assessment of exemplary damages influenced settlement amounts. They were asked to allocate damages into categories when exemplary damages influenced the settlement. These categories are (1) economic losses; (2) non-economic losses; (3) exemplary damages; and (4) prejudgment interest. In the adjusters' opinions, there were 12 settlements of less than $25,000 that were influenced by exemplary damages. The percentages by categories are also shown in Figure 6.

FIGURE 6

DAMAGES
INFLUENCED BY EXEMPLARY DAMAGES



The available data from 5,204 long forms indicates the use of structured settlements in the final resolution of 263 indemnity claims (5%). These structured settlements amounted to $246,245,654 with an average settlement amount of $936,295 and a median settlement amount of $408,822. In these 263 cases, the immediate payment was on average 71% of the total settlement amount, while the structured portion was 29% of the total settlement amount.

Of the 5,204 long forms, 1,968 (38%) indicated that they were aware of the availability of some collateral sources of reimbursements to the injured person. Since claimants are not required to make this information available to insurers, this data may not have been reported in all cases where collateral sources were available. Figure 7 shows the collateral sources reported.

FIGURE 7

COLLATERAL SOURCES

Collateral Sources	Number of Forms
Workers' Compensation	708
Medical Insurance	922
Disability Insurance	74
Social Security Benefits	65
Medicare, Medicaid	375
Sick Leave	49
Other	72

Insurers were asked on all forms to divide their loss adjustment expenses into three categories: (1) outside defense counsel; (2) in-house defense counsel; (3) other expenses. A total of 4,272 forms indicate no allocated loss adjustment expense for the claim reported.

One of the three categories of expense was shown on the other 4,806 reports. Figure 8 shows the relationship of loss adjustment expenses to claim payments. The ALAE to payment ratio increased as average payment increased. Since cost containment expenses are not reported on the closed claim forms, the data in this section understates the amount of expenses incurred while settling the claim.

FIGURE 8

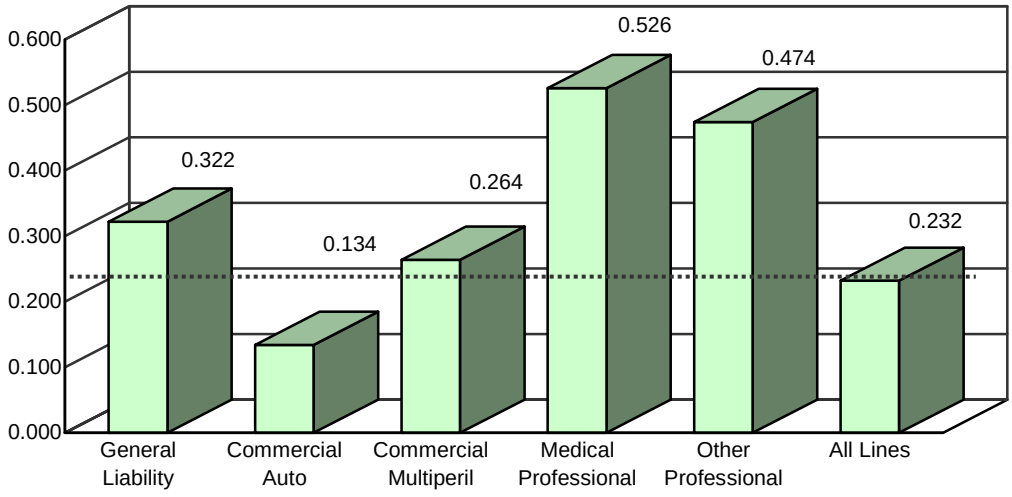
RATIO OF ALAE TO CLAIM PAYMENT BY ALAE RANGE

ALAE Range	Claims	Average Payment	ALAE/Payment Ratio
$0	4,272	$35,981	0.000
$1 - $ 2,999	791	$57,876	0.021
$3,000 - $ 5,999	451	$73,127	0.060
$6,000 - $ 9,999	540	$80,136	0.099
$10,000 - $24,999	1,137	$106,608	0.157
$25,000 - $49,999	869	$159,030	0.221
$50,000 and over	1,018	$289,531	0.461
Total	**9,078**	**$91,418**	**0.232**

The data from all forms indicates that the average allocated loss adjustment expense was 23.2% of the insurer's payment. Figure 9 compares the ALAE/Payment ratio by line of insurance. Claims without allocated adjustment expenses are included. The ratio for all lines of 0.232 is shown by a dotted line for comparison purposes.

FIGURE 9

ALAE/PAYMENT RATIO BY LINE OF INSURANCE

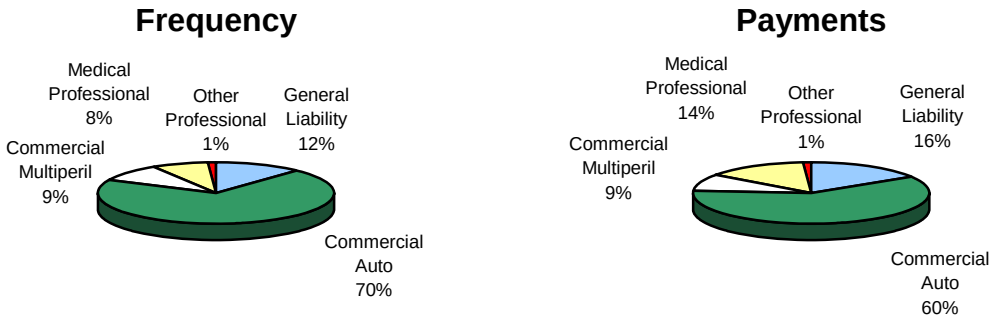


Insurance Policy Data

Commercial auto liability claims represent 70% of the closed claim reports filed and 60% of the insurer payments. General liability claims represent 12% of the closed claim reports filed and 16% of the insurer payments. Claims related to the liability portion on commercial multi-peril policies represent 9% of the reports filed and 9% of the insurer payments. Medical professional liability claims represent 8% of the reports filed and 14% of the insurer payments. Other professional liability claims represent 1% of the reports filed and 1% of the insurer payments. Only 40 cases involve other professional liability; therefore, the data relating to that line is highly variable and is treated accordingly. Figure 10 illustrates the comparative relationship between numbers of claims and amounts of claim payments among the five lines of insurance.

FIGURE 10

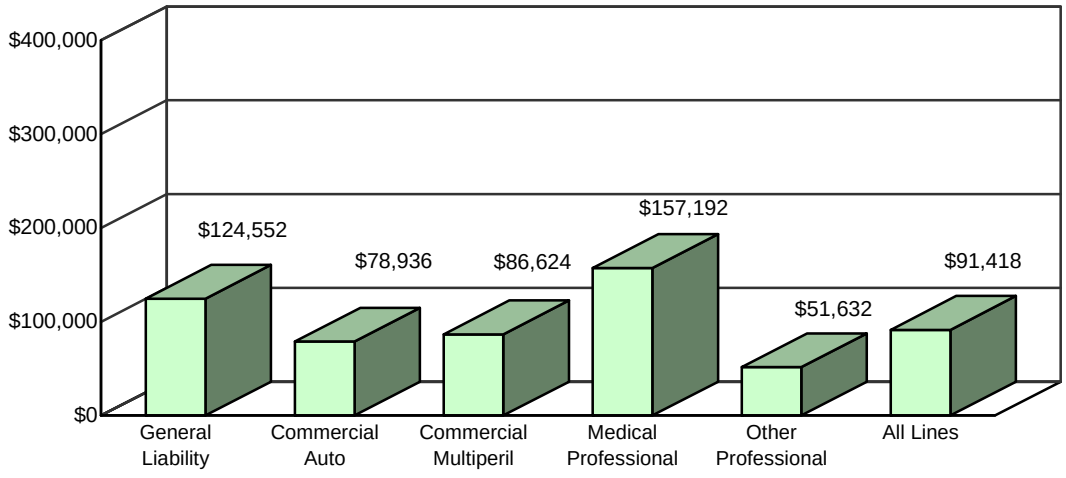
DISTRIBUTION OF CLAIMS AND CLAIM PAYMENTS BY LINE



Based on all forms from all lines, the average insurer payment is $91,418. Claims involving medical professional liability reflect the highest average with an average payment of $157,192. Other professional claims average $51,632, considerably below the average. These comparisons are illustrated in Figure 11. Note that these averages do not include settlements of $10,000 or less.

FIGURE 11

AVERAGE PAYMENT ALL LINES COMPARISON



Among the major insured business classifications reviewed, claims were most frequently cited in transportation, other (miscellaneous), wholesale-retail trade, construction firms, and physicians and surgeons. Twenty-six business classifications are included on the closed claim forms. The twelve business classifications listed in Figure 12 account for nearly 96% of the total reported claims and nearly 96% of the total payments reported for calendar year 2007.

FIGURE 12

FREQUENCY OF CLAIMS
BY BUSINESS CLASSIFICATION

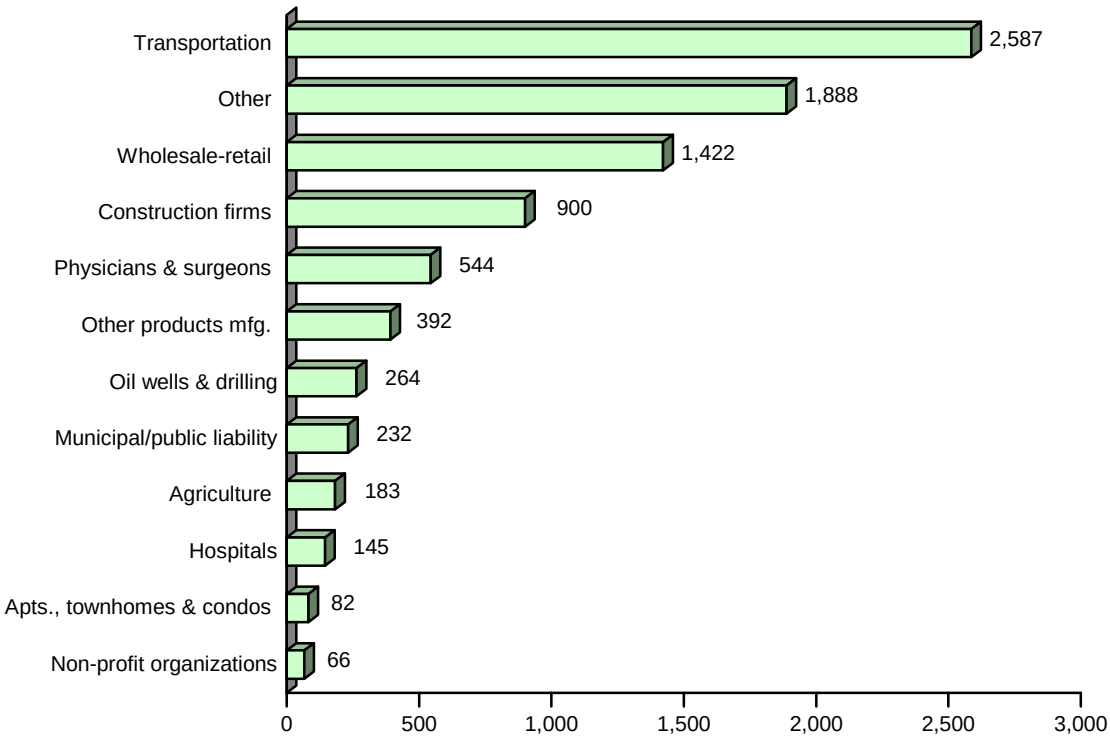


Figure 13 compares the average payment for each of the twelve major business classifications shown in Figure 12. The all lines average payment amount of $91,418 is represented by a dotted line for comparison purposes. Physicians & surgeons had an average claim payment of $161,888, the highest of the major classifications.

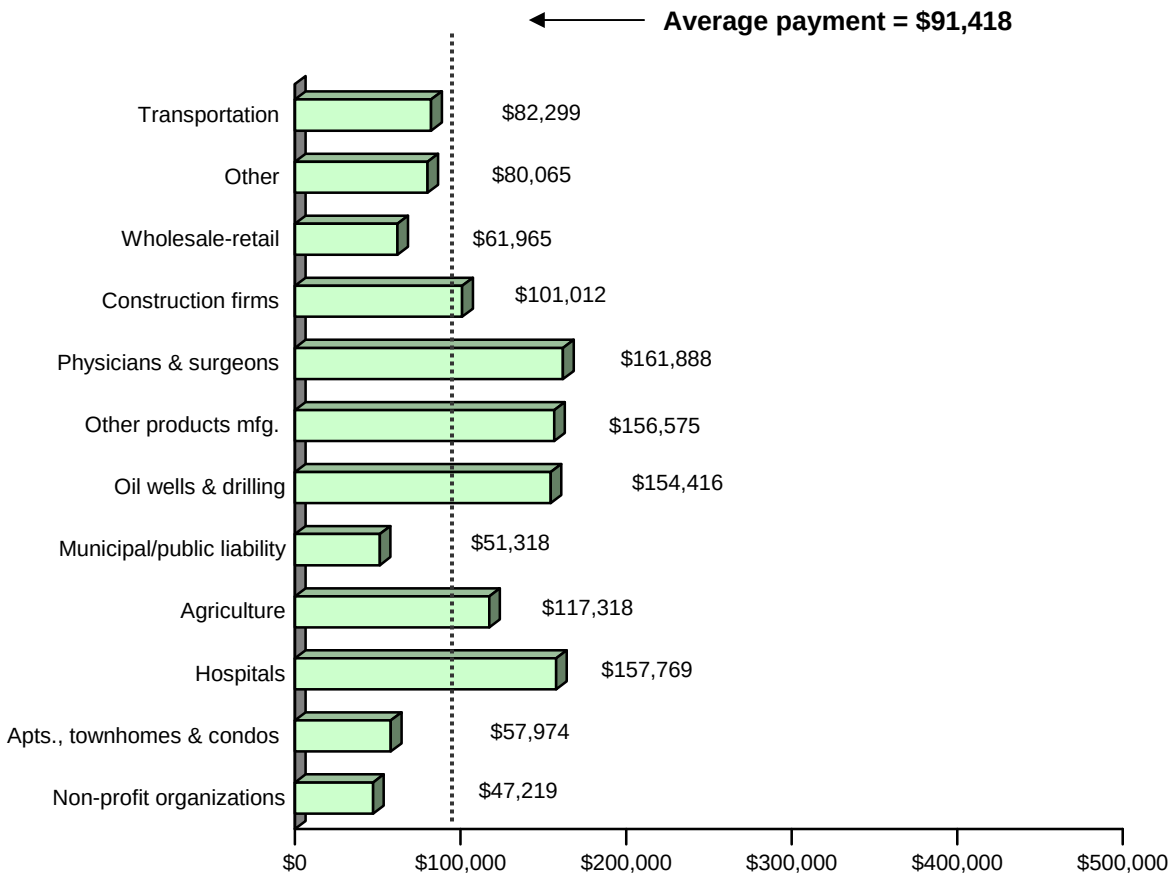
FIGURE 13

MAJOR BUSINESS CLASSIFICATIONS
AVERAGE CLAIM PAYMENT



A comparison of final demand or payment to the policy limit may be misleading due to the presence of multiple claimants and/or property damage in an occurrence. However, a minimum number of injuries affected by impaired or exhausted policy limits can be determined from the closed claim forms.

Figure 14 shows 349 claims (4%) were affected by impaired or exhausted policy limits while 57 (16%) of those claims involved excess carriers. The most frequent policy limit was $1,000,000 for each line of insurance.

FIGURE 14

IMPAIRED OR EXHAUSTED POLICY LIMITS
BY LINE OF INSURANCE

Line of Insurance	Frequency	Average Payment	Excess Coverage Involved
General Liability	27	$1,004,328	15
Commercial Auto	234	$347,292	35
Commercial Multi-peril	16	$669,220	6
Medical Professional	72	$233,715	1
All Lines	**349**	**$389,450**	**57**

Since some insurers include expense reserves with indemnity reserves, they were combined in this report. The sum of the payment and allocated loss adjustment expenses is designated as an expenditure. Overall, the average initial case basis reserve of $46,045 was 41% of the average expenditure of $112,650. Sixty percent of the claims were over-reserved by $253,669,737 (just before the claim closed) while 27% were under-reserved by $94,830,580. The aggregate data from all forms indicates that expenditures were over-reserved by an average of 16%. A comparison by line of insurance is shown in Figure 15.

FIGURE 15

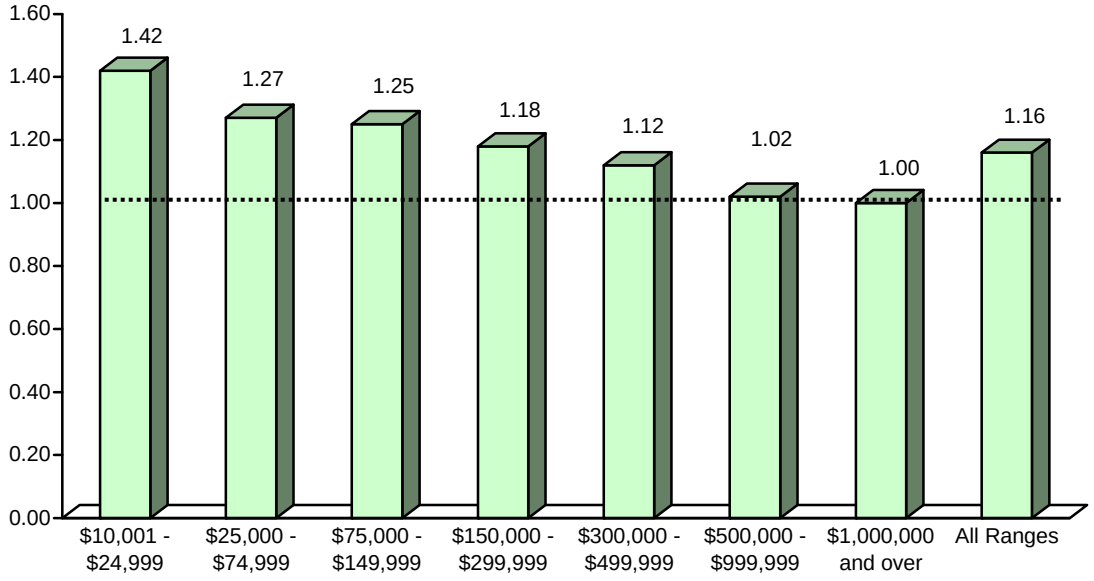
BY EXPENDITURE RANGE



***Adequate Reserve Ratio – 1.00**

Bodily Injury

The long form contains information relating to the type of injury, how the injury occurred, and the age of the injured person. Eighteen separate types of injuries are listed on the long form and insurers are instructed to select all applicable types of injuries. Please note that some forms may have incomplete settlement amounts because they are multi-party claims. The data from 5,204 long form settlements indicate that back injuries were the most common type of injury as shown in Figure 16. Insurers were instructed to select all the types of injuries applicable to the claim. Thus, in cases other than death, the same claim may be shown under more than one category of injury.

FIGURE 16

INJURY TYPE
NUMBER OF CLAIMS

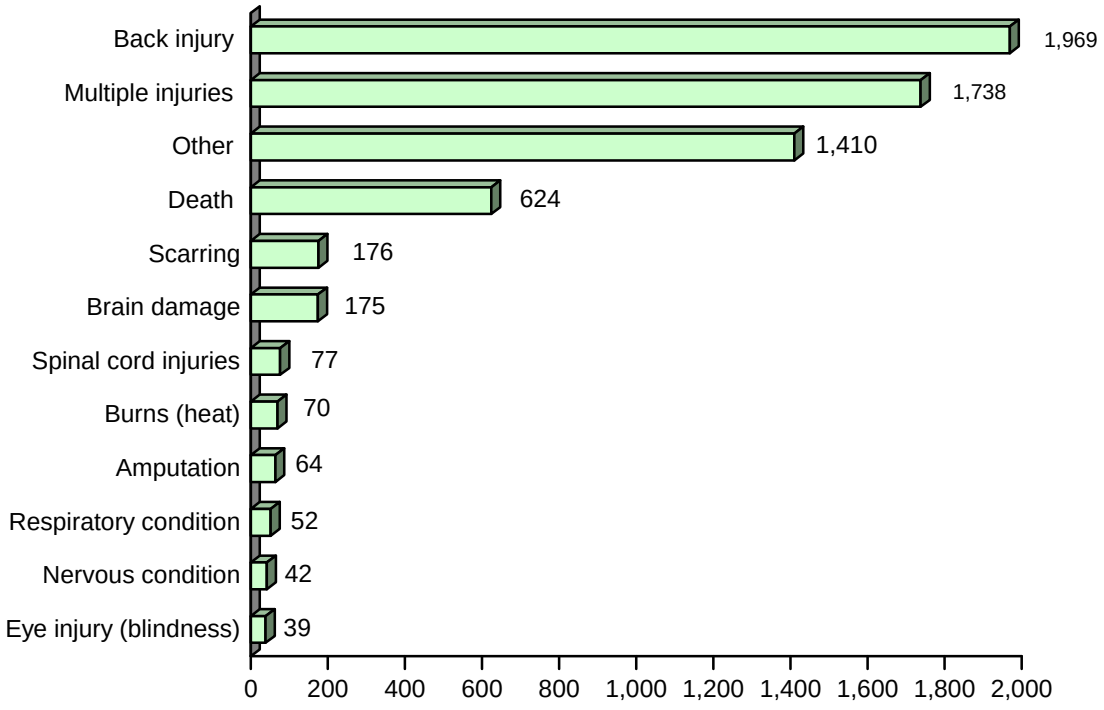


Figure 17 shows settlement amounts by injury type. Because of the possibility of duplicate reporting of injuries and the effect a large claim could have on the average claim amount, median settlement figures are used. The most costly claims closed in 2007 involved brain damage injuries.

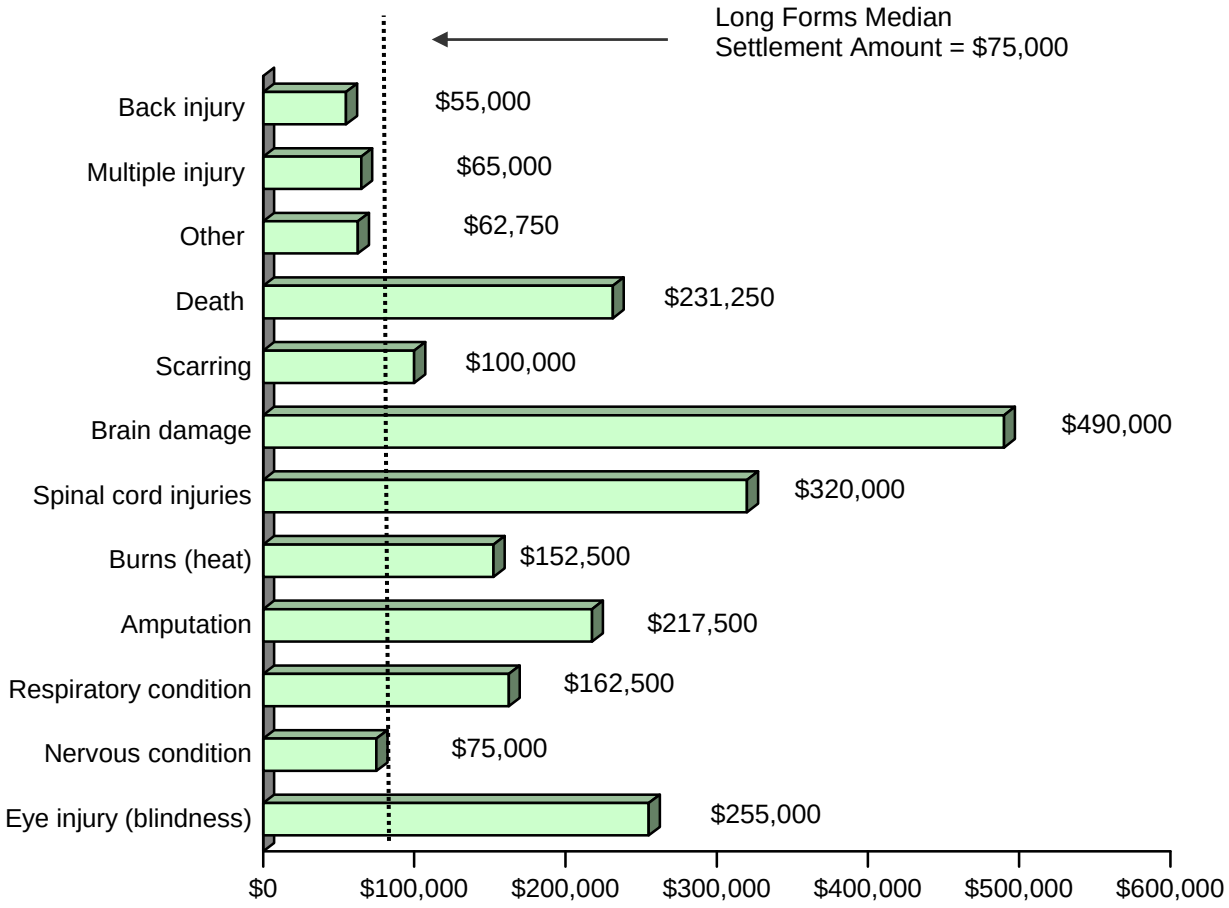
FIGURE 17

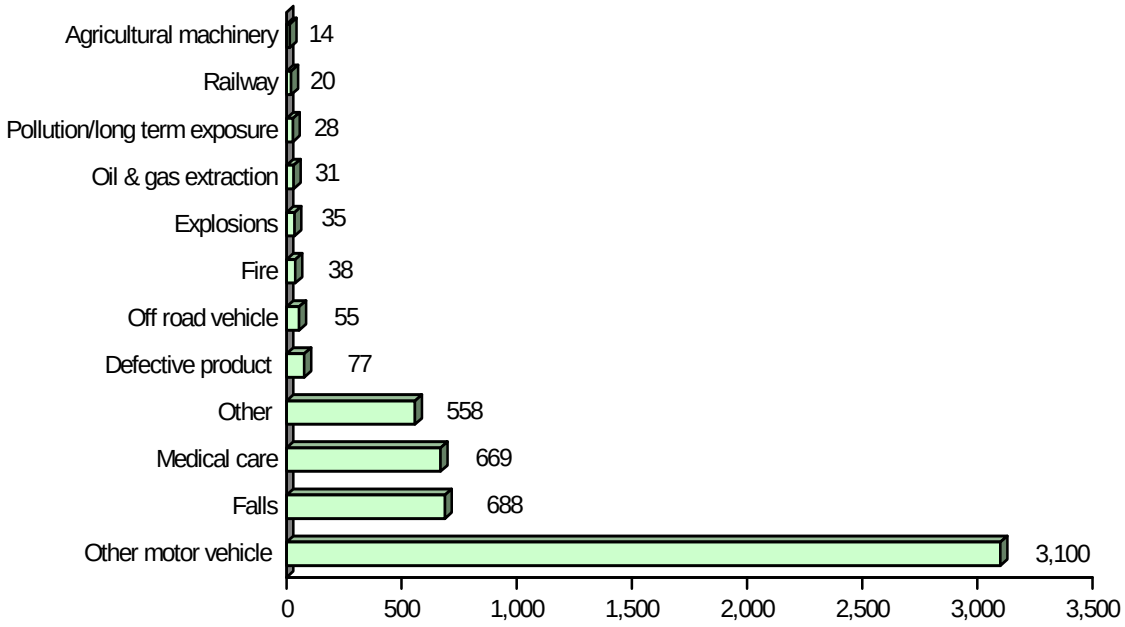
INJURY TYPE
MEDIAN SETTLEMENT AMOUNT



The long form also has 15 categories based upon the activity engaged in at the time of the injury. The twelve most frequent activities are shown in Figure 18. The adjusters' opinions here are subjective and may include more than one activity. For example a claim involving a defective automobile may be marked as use of defective product, motor vehicle or both. The operation of a motor vehicle was indicated as the most common injury related activity.

FIGURE 18

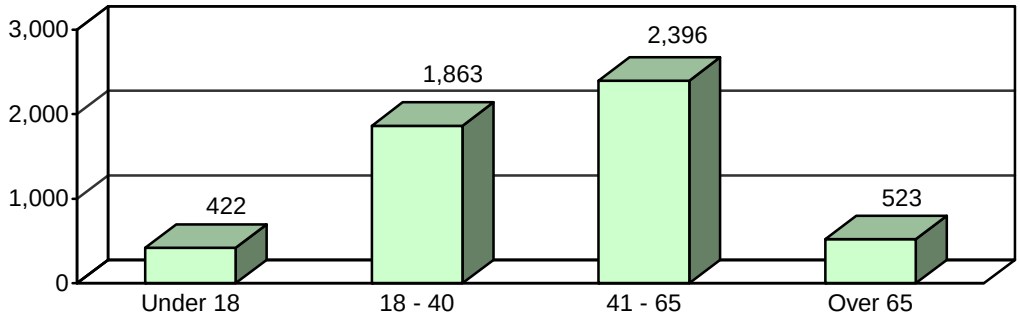
HOW THE INJURY OCCURRED
NUMBER OF CLAIMS



The age of the injured person at the time of injury was reported only on the long forms. Figure 19 indicates the age distribution. The median age of the injured party was 43 years.

FIGURE 19

ALL INJURIES
AGE DISTRIBUTION



There were 8,986 injuries that occurred in Texas and 92 injuries that occurred outside of Texas. Figure 20 shows the Texas counties with 50 or more injuries and shows the ratio of claims to county population. The statewide ratio is 37.69 claims for every 100,000 population.

FIGURE 20

WHERE THE INJURY OCCURRED

COUNTIES WITH 50 OR MORE INJURIES

County	Number of Claims	Number of Claims/ 100,000 Population	Median Settlement Amount	Maximum Settlement Amount
Harris	1,746	44.63	$25,320	$8,875,000
Dallas	1,092	45.82	$22,910	$6,500,000
Tarrant	642	37.56	$25,000	$12,789,000
Bexar	580	36.47	$29,250	$5,200,000
Hidalgo	348	49.33	$28,369	$2,200,000
Travis	304	31.34	$25,434	$1,570,000
El Paso	230	31.51	$26,125	$1,725,000
Collin	220	30.10	$24,525	$1,450,000
Jefferson	188	77.57	$53,876	$4,375,000

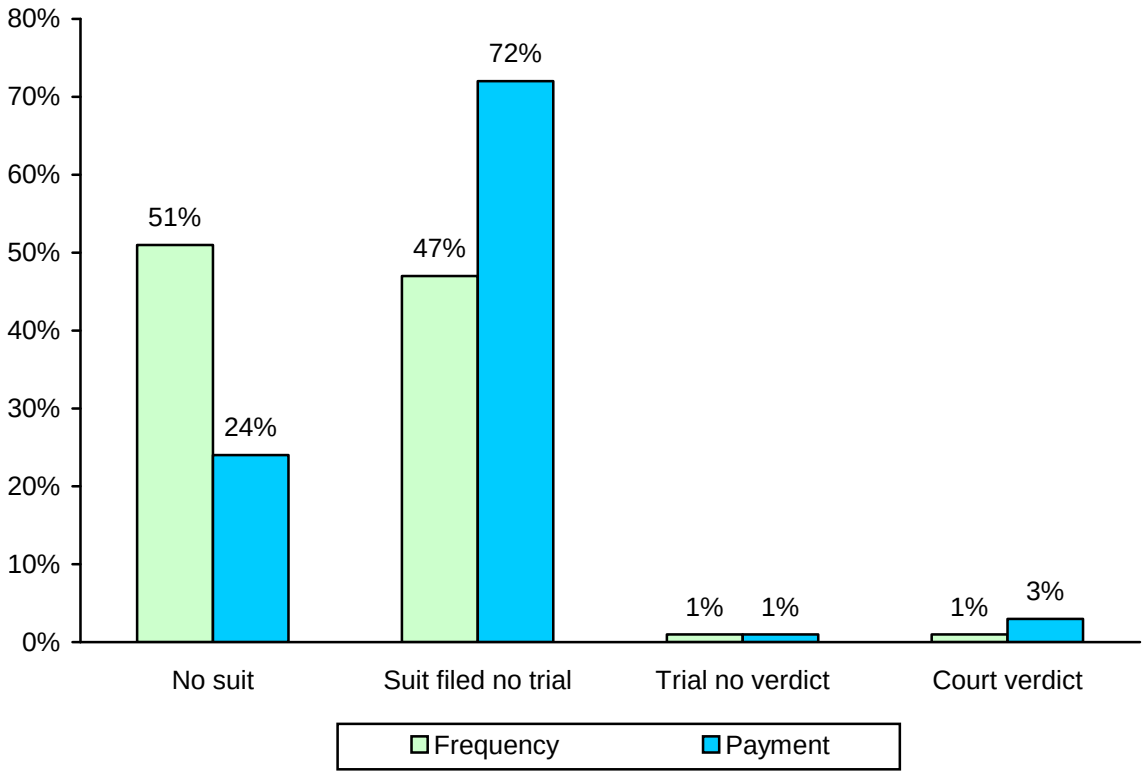
Williamson	62	16.67	$51,326	$7,300,000
Ector	60	46.36	$21,000	$1,550,000
Bell	58	20.88	$20,000	$1,015,000
Brazoria	57	19.45	$25,000	$10,500,000
Orange	57	69.05	$43,000	$17,000,000
Potter	55	45.68	$25,000	$1,106,570
Midland	52	41.19	$27,250	$1,500,000

Claims Process

As can be seen in Figure 21, only one percent of all reported settlements involved a court verdict. The overwhelming majority of claims were settled without the necessity of a trial. There were court verdicts for 76 injuries reported on 8 short forms and 68 long forms. Since the claim settlement process does not end with the trial court's verdict, the closed claim forms were designed to capture data relating to the court verdict and the final settlement. The other defendants or the excess carrier may have contributed to the settlement without being involved in the court verdict and may have agreed to a settlement before or after a verdict. Since the total settlement amount for multi-party claims may be inaccurate or unknown, the section on court verdicts deals only with the payments of the 73 claims that appear to be complete.

FIGURE 21

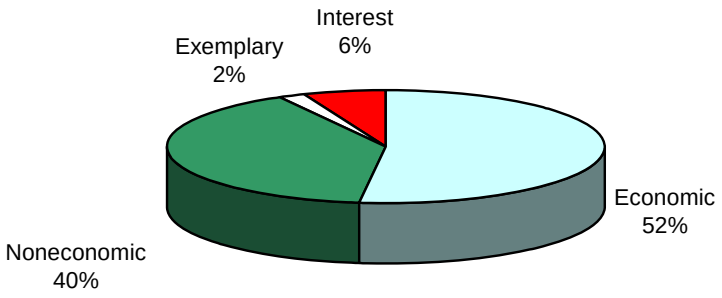
STAGES OF THE CLAIMS PROCESS



All closed claims that involved a court verdict required a distribution of the court verdict into four distinct categories of damages. The allocation of the verdict amount into damages is indicated in Figure 22.

FIGURE 22

COURT VERDICTS
DAMAGES BY CATEGORY



In reviewing the court verdicts in Figure 23 it was found that, on average, the verdict amount was reduced by almost 57% before the case was finally settled.

FIGURE 23

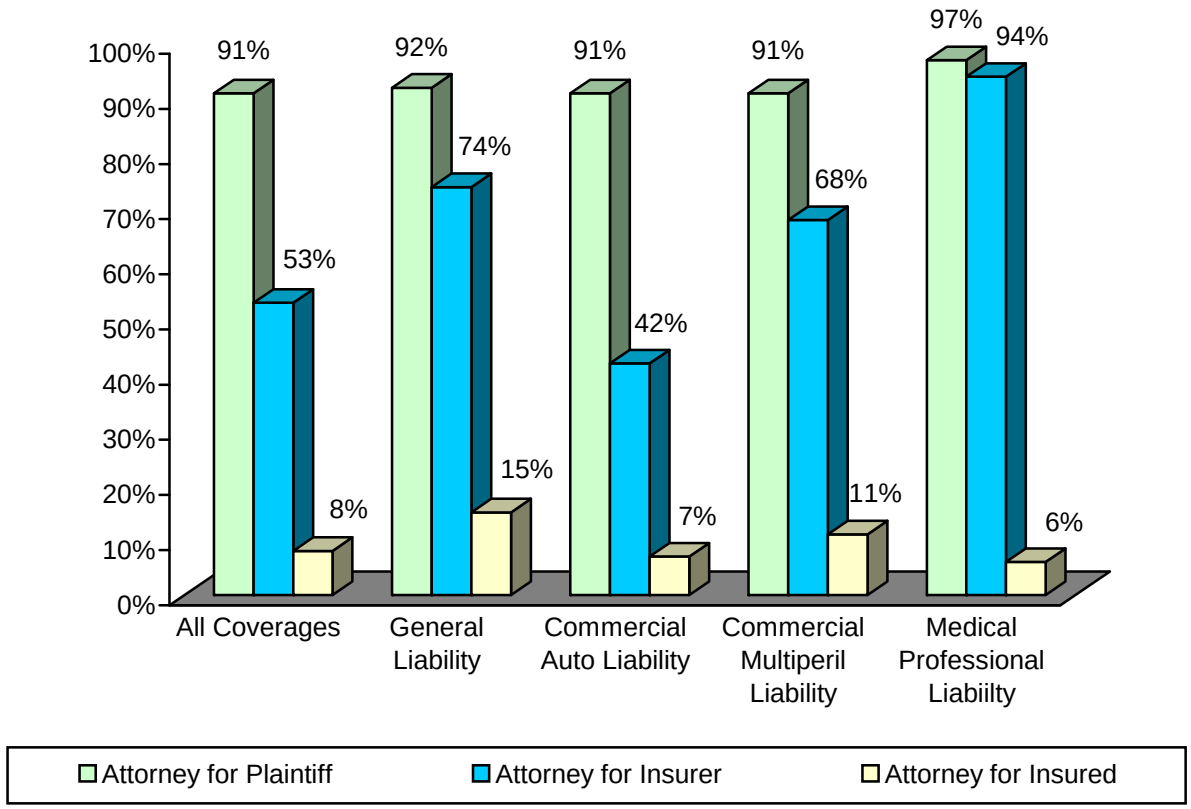
COURT VERDICT VS. SETTLEMENT AMOUNT

	Claims	Total Verdict Amount	Total Settlement Amount	Amount of Difference	Percent Difference
Verdict more than settlement	22	$52,815,274	$22,610,941	($30,204,333)	(57.2%)
Verdict equal to settlement	36	$14,337,479	$14,337,479	$0	0.0%
Verdict less than settlement	15	$3,345,704	$4,751,665	$1,405,961	42.0%
Total	**73**	**$70,498,457**	**$41,700,085**	**($28,798,372)**	**(40.8%)**

The data from all 9,078 reports shows that 91% of all cases indicated the involvement of an attorney on behalf of the injured person (plaintiff), while 53% indicated an attorney for the insurer, and 8% indicated the hiring of an attorney to represent the insured. Figure 24 summarizes the attorney involvement for all policy lines studied except other professional liability.

FIGURE 24

ATTORNEY INVOLVEMENT BY LINE



There were 1,019 multiple-defendant cases that were settled before a court verdict and 29 judgments involving multiple defendants. In 109 (11%) of the 1,019 cases settled prior to a court verdict, the doctrine of joint and several liability impacted the settlement. Seven of the 29 judgments involving multiple defendants provided for joint and several liability in regard to any defendant.

Focusing on the doctrine of comparative responsibility, a total of 910 cases (18% of all long form settlements) indicate some fault attributable to the injured person. These 910 cases had a median settlement amount of $75,000 (equal to all long forms' median of $75,000) and, on average, estimated the injured person to be 39% at fault.

Generally, Texas law allows a plaintiff to bring suit in one of several counties (See Chapter 15, *Texas Civil Practice and Remedies Code*). Figure 25 presents the relationship of the suits involving choice of venue by line of insurance.

FIGURE 25

CHOICE OF VENUE
BY LINE OF INSURANCE

Line of Insurance	Total Number of Suits Filed	Number of Suits Filed in County Other Than Where Injury Occurred	Percent of Total
General Liability	754	80	10.6%
Commercial Auto	2,427	258	10.6%
Commercial Multi-peril	540	44	8.1%
Medical Professional	662	44	6.6%
Other Professional	26	1	3.8%
All Lines	**4,409**	**427**	**9.7%**

A total of 4,409 forms reported that suits were filed, with 3,982 filed in the county of injury; meanwhile, 427 forms indicated that the suit was filed in a county other than the county where the injury occurred. The median settlement amount in the 3,982 cases was $60,000, while the median settlement amount in the remaining 427 cases was $100,000. Figure 26 shows the counties with an influx of five or more lawsuits.

FIGURE 26

CHOICE OF VENUE
COUNTIES THAT GAINED FIVE OR MORE LAWSUITS

County	Number of Suits Filed	Number of Suits Incoming	Percent of Suits Incoming	Median Settlement Amount of Suits Filed in County Listed
Harris	862	71	8.2%	$55,750

All Counties	**4,409**	**427**	**9.7%**	**$63,000**

Comparative Analyses

Figure 27 shows the time comparison between single-party and multi-party cases. As expected, the multi-party cases take longer to close than the single-party cases.

FIGURE 27

ALL LINES TIME STUDY
BY PARTY (MONTHS)

Category	Number of Claims	Total Payments	Injury to Notice	Notice to Settlement	Settlement to Close	Injury to Close
Single-Party	7,997	$613,320,974	2.5	18.3	1.8	22.6
Multi-Party	1,081	$216,574,246	17.5	26.2	3.9	47.6
All Parties	**9,078**	**$829,895,220**	**4.3**	**19.3**	**2.0**	**25.6**

Figure 28 shows time comparisons among various lines of insurance. The data for other professional liability is included with general liability due to only 40 claims being reported for this line of insurance. Medical professional liability cases involve the longest average span of time (45.6 months) from the date of injury to the actual closing of the claim.

FIGURE 28

ALL LINES TIME STUDY
BY POLICY TYPE (MONTHS)

	Number of Claims	Total Payments	Injury to Notice	Notice to Settlement	Settlement to Close	Injury to Close
General Liability	1,120	$136,581,630	14.8	23.5	3.3	41.6
Commercial Auto	6,369	$502,741,904	0.8	17.3	1.6	19.8
Commercial Multiperil	839	$72,677,821	7.2	21.0	2.6	30.8
Medical Professional	750	$117,893,865	14.9	28.2	2.6	45.6
All Claims	**9,078**	**$829,895,220**	**4.3**	**19.3**	**2.0**	**25.6**

Figure 29 displays the average times for each injury type. Of the studies based on type of injury, those involving respiratory condition, on average, took the longest time from injury to close (130.9 months), which is more than four times the average of 31.5 months for all long form claims. The total payments column for all long forms does not equal to the subtotal of the separate injury types because the long form allows for multiple selections of injury type.

FIGURE 29

ALL LONG FORMS TIME STUDY
BY INJURY TYPE (MONTHS)

Injury Type	Number of Claims	Total Payments	Injury to Notice	Notice to Settlement	Settlement to Close	Injury to Close
Death	624	$199,192,960	13.5	24.9	4.0	42.5

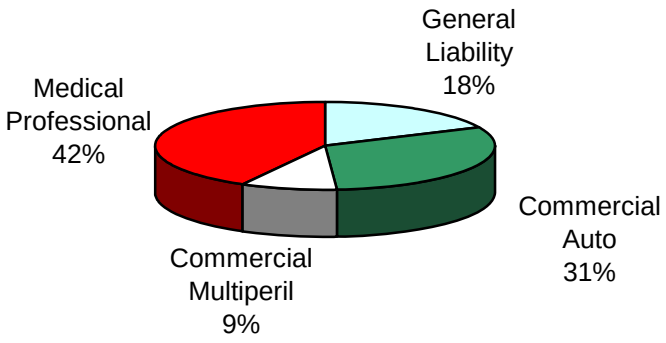
All Long Forms	**5,204**	**$775,869,658**	**6.1**	**23.0**	**2.5**	**31.5**

Injury type is only reported on the long form. There were 624 injuries (12%) reported on the long form that resulted in death. As shown in figure 30, medical professional liability claims account for 42% of the death claims, commercial auto liability for 31%, general liability for 18%, and commercial multi-peril liability for 9%.

FIGURE 30

DEATH CLAIMS
BY LINE OF INSURANCE



Of the 5,204 settlements reported on long forms, 808 claims indicated work-related injuries. On a percentage basis, the business classification of oil wells & drilling indicated the highest rate of work-related injuries with 36.3% of the claims relating to the job, followed by construction firms at 34.1% and other products manufacturers with 27.9% of the claims reported as work-related. Figure 31 shows data for the business classifications with more than 20 work-related injuries.

FIGURE 31

WORK-RELATED INJURIES
BY BUSINESS CLASSIFICATION

Business Classification	Work-Related Claims	Percent Work-Related	Average Payment	Claim Duration	Injury to Close
Transportation	181	13.2%	$200,843	25.6	30.0
Construction firms	178	34.1%	$205,384	26.1	38.0
Other	155	15.5%	$183,086	26.7	47.7
Wholesale-retail trade	74	10.7%	$161,892	27.7	36.4
Other products manufacturers	67	27.9%	$249,246	23.6	54.7
Oil wells & drillings	62	36.3%	$237,912	19.8	31.2
Agriculture	25	20.7%	$214,935	23.6	32.5
All Business Classes	**808**	**15.5%**	**$200,097**	**25.7**	**39.7**

The 2007 closed claim report data contains 469 claims involving the business classifications of drug manufacturers, manufacturers of chemical and allied products, medical products manufacturers, and other products manufacturers. The average payment for product liability claims of $149,434 was 64% more than the average of $91,418 for all lines. The average allocated loss adjustment expense for product liability claims of $31,150 was more than the average of $21,231 for all lines. The claims are categorized in this section as product liability claims, but are not necessarily caused by use of a defective product. Figure 32 presents the average claim information derived from the product liability claims reported.

FIGURE 32

PRODUCT LIABILITY
AVERAGE CLAIM

	Payment Amount	Final Indemnity Reserve	ALAE	Final Expense Reserve	Claim Duration (Months)
Product Liability	$149,434	$162,719	$31,150	$19,822	19.7
All Forms	**$91,418**	**$112,471**	**$21,231**	**$17,676**	**19.3**

Only 232 settlements indicated municipal/public liability as the insured business classification. Data derived from these reports show the average payment amount to be $51,318, which is 44% less than the average of $91,418 for all forms. Figure 33 presents the average claim information for municipal/public liability claims reported.

FIGURE 33

MUNICIPAL/PUBLIC LIABILITY
AVERAGE CLAIMS

	Payment Amount	Final Indemnity Reserve	ALAE	Final Expense Reserve	Claim Duration (Months)
Municipal Liability	$51,318	$61,006	$15,962	$17,987	21.3

2007 Calendar Year
Annual Aggregate Closed Claim Report

The 2007 Calendar Year Annual Aggregate Closed Claim Report was filed on an annual basis for bodily injury indemnity payments of $10,000 or less. Three hundred thirty insurance companies and six self-insured entities are included in the Annual Aggregate Closed Claim Database. A summary of the Aggregate Closed Claim Report is presented below.

	(1) Aggregate Number of Claims $ 0 Indemnity Payments	(2) Aggregate Number of Claims $1 to $10,000 Indemnity Payments	(3) Total Number of Claims (1 + 2)	(4) Aggregate Dollar Amount Paid Out
General Liability	18,172	2,844	21,016	$6,269,743
Other Professional Liability	705	53	758	$170,580
Commercial Auto Liability	18,719	16,038	34,757	$55,524,296
Commercial Multi-peril Liability	7,919	2,781	10,700	$7,646,200
Medical Professional Liability	3,294	122	3,416	$571,830
Total	48,809	21,838	70,647	$70,182,649

2007 Closed Claim Reconciliation Form

The Texas Department of Insurance required companies to submit a reconciliation form for calendar year 2007 to ensure that all applicable closed claims were reported. The payments reported on Quarterly Closed Claim Reports with bodily injury over $10,000 and the Aggregate Closed Claim Reports with bodily injury of $10,000 or less were compared to the direct losses paid by line of insurance. These losses were reported to the National Association of Insurance Commissioners (NAIC) on the 2007 Annual Statement, Texas Statutory Page 14. **Self-insured entities did not complete a Reconciliation Form and therefore, are not included in this section.**

There were 532 insurance companies that reported a total of $2,229,473,727 direct losses paid on the 2007 Annual Statement, Texas Statutory Page 14 for the lines of business mentioned in §§38.151, Texas Insurance Code. Thirty-eight percent (38%) of the direct losses paid for general liability, commercial auto liability, Texas commercial multi-peril liability, and medical professional liability were reported on closed claim reports. The remaining $1,374,373,967 of direct losses paid involved amounts that were not reported during calendar year 2007 on closed claim reports. The following chart summarizes the information from the reconciliation forms. The data allows a comparison to be made by line of insurance between payment amounts that are required to be reported under §§38.151 – 38.163 of the Texas Insurance Code and payments made during calendar year 2007 that are not reportable on closed claim reports. General Liability and Other Professional Liability are combined on the Reconciliation Form.

Line 1 of the reconciliation form shows the amount of claims reported for each line of insurance on the Closed Claim Report of Accepted Transactions at the beginning of the reconciliation project.

Line 2 of the reconciliation form indicates the amount of claims as shown on the Aggregate Closed Claim Report.

Line 3 is the subtotal of lines 1 and 2 of the closed claim reconciliation form.

Lines 4 and 5 consist of payments that did not involve bodily injury. These payments were mainly for property damage losses, but also included amounts for medical payments, personal injury protection, uninsured and underinsured motorist payments, professional liability, and payments on claims involving mental anguish, improper termination, libel, slander, etc.

Lines 6 and 7 include payments made on open claims that will not be reported until the claim closes and payments made in preceding calendar years.

Line 8 shows the excess payments by line of business as reported on the reconciliation forms. Excess payments on bodily injury are part of the settlement amount of a claim. Many insurance companies do not know the amount paid by an excess carrier and therefore, do not report it correctly in the settlement amount on a closed claim report. This is a major reason for reporting the 2007 Closed Claim Annual Report on a payment basis instead of a settlement basis.

Only claims settled under Texas law are reportable on the Closed Claim Reports. **Line 9** shows direct losses paid by line of insurance on policies written in Texas for claims that were not settled under Texas law. Included for comparison purposes on **Line 10** are the amounts reported on closed claim reports for policies written in another state where the claim was settled under Texas law.

On **Line 12**, the reconciliation form shows $64,601,020 for total reimbursements received. This was primarily deductibles recovered for liability and property damage claims.

Adjustments made due to company rounding and estimating procedures are shown on **Line 13.**

Line 14 relates primarily to losses from catastrophes and class action suits that involve more than ten claimants.

Line 15 shows the amount of claims that companies were unable to reconcile during the reconciliation process.

Line 16 shows the amount of claims that were on the Closed Claim Report of Unaccepted Transactions at the beginning of the reconciliation process.

Line 17 and 18 are losses moved to or from a Texas closed claim report to another line of insurance or company.

Losses reported on Quarterly Closed Claim reports received during the reconciliation process are shown on **Line 19.**

Lines 20 and 21 indicate the amount of direct losses paid for each line of insurance as shown on the 2007 Annual Statement, Texas Statutory Page 14.

TEXAS CLOSED CLAIM RECONCILIATION
FOR CALENDAR YEAR 2007

TOTALS FOR ALL 532 COMPANIES

	General Liability	Commercial Auto	Commercial Multi-peril	Medical Professional	TOTAL
1. Payments Included in Quarterly Closed Claim Reports from the ATL	$112,654,945	$422,280,939	$54,346,634	$83,319,093	$672,601,611
