Replication Package for "Gender Wage Gap, Bargaining Power, and Charitable Giving of Households"

By So Yoon Ahn and Meiqing Ren

Overview:

The replication package allows replication of the main results reported in the paper. It consists of two parts, including the program scripts and several datasets.

Code:

- Figures_Tables_do:
  Creates tables and figures from main manuscript.

Data files:

- PSID_Donation_with_Bartik_Cleaned.dta
  PSID data from 2003-2019 waves is merged with Bartik-style relative wages constructed from the 2000 Census and QCEW. The sample comprises married families whose heads are between 25 and 60 years old.
- CPI.dta
  CPI data from 1990 to 2020.
- ACS_2003_2019.dta
  ACS data from 2003 to 2019.
- Bartik_wo_EduRace.dta
  State-year level Bartik-style wages for men and women and relative wages from 2000 to 2019.
- State_map
  State-based cartographic boundary mapping files from Census.
