OPENING STATEMENT: AFTER REACHING "INITIAL CONTACT" IN DWELLING UNIT WHO APPEARS TO BE AT LEAST 18 YEARS OLD.

Good morning/afternoon/evening, I am from the UCLA Survey Research Center. In our research, we ask the people of Los Angeles County to tell us how they feel about various issues and problems that are affecting their lives. This information is valuable both for planning and for scientific research. Your household is very important to this survey because it represents hundreds of others which are not in our sample. EVERYTHING YOU TELL US WILL BE STRICTLY CONFIDENTIAL. YOUR NAME WILL BE IN NO WAY CONNECTED TO THE FINDINGS OF THIS IMPORTANT STUDY.

(IF THE INITIAL CONTACT OR RESPONDENT QUESTIONS BEING REINTERVIEWED, EXPLAIN:

"A certain proportion of the households interviewed last year were specially selected to be reinterviewed. This is important to find out what changes have occurred in the county during a year's time.")

1A. First, I would like to make a list of the persons 18 years old or over, who live here as members of your household. This will tell me which adult I am to interview. Would you start by giving me the name of the oldest man, then the next oldest, and so on down to the youngest man living here. Then I would like to do the same thing for the women living here who are 18 years old or older, beginning with the oldest, and so on down to the youngest woman.

1C. In checking my sampling table, I see that you are the person I am supposed to interview in this household. For the last part of this section, then, would you give me some information on those persons under 18 years old who are living here as members of your household?

1D. In checking my sampling table, I see that the person I am supposed to interview is _____. But before I turn to that interview, would you give me information like before on those persons under 18 years old who are living here as members of your household? Please begin with the youngest person.
