Codebook for "Constructing a New Measure of Macropartisanship Disaggregated by Race and Ethnicity"

The file contains one spreadsheet with three tabs. The first tab includes macropartisanship data by month, labeled Monthly Data, the second tab includes data by quarter, labeled Quarterly Data, and the third tab includes data by year, labeled Yearly Data. All measures of macropartisanship were constructed using Stimson's (2018)Dyad Ratio Algorithm.

Variables

Year=Year
Month=Month
Quarter=Quarter
Black_PID=Black Macropartisanship
Latino_PID=Latino Macropartisanship
White_PID=(non-Latino) White Macropartisanship
Overall_PID=Macropartisanship for all including Black, Latino, (non-Latino) White, and other
