Name:         CC06_V4041
Description:  Statement - Raise Taxes or Cut Spending - Don’t Know
Question:     If your state were to have a budget deficit this year it would
              have to raise taxes on income or sales or cut spending, such as
              on education, health care, welfare, and road construction. What
              would you prefer more raising taxes or cutting spending? Choose a
              point along the scale from 100% tax increases (and no spending
              cuts) to 100% spending cuts (and 0% no tax increases). The point
              in the middle means that any the budget should be balanced with
              equal amounts of spending cuts and tax increases. - Don't know

Name:         CC06_V4042
Description:  Statement - Income Tax or Sales Tax
Question:     If the state had to raise taxes, which taxes should it increase?
              Suppose that your state government has to raise some combination
              of sales taxes and individual income taxes in the coming year.
              What share of the tax increase should come from increased income
              taxes and what share from increased sales taxes? Choose a point
              along the scale from 100% from sales (and none from income) to
              100% from income (and none from sales). The point in the middle
              means that any increase in taxes should come equally from sales
              and income taxes.

Name: CC34
Description: SCHIP vote
Question: As you know, Senators and Representatives in Washington regularly
have to decide how to vote on issues affecting the country. We'd
like to ask you about how you would vote on some of these same
issues as well as how you think your representative voted.
Congress voted on a proposal to renew and increase funds for
a state-run program called SCHIP that provides health care to
children whose families can not afford private insurance.
Supporters argue that the bill is needed to cover around 9 million
currently uninsured children.
Opponents argue that the cost of the program is too high and it
will push children who already have private health insurance
into a publicly financed health care system.
What do you think? If you were faced with this decision, would
you vote for or against expanding this program?

Count	Code	Label
