The replication data include 4 files:

1. ChenHeese_2024_JPEMicro.do
2. ChenHeese_CrossSectional_JPEMicro.tab
3. ChenHeese_EventHistory_JPEMicro.tab
4. ChenHeese_Panel_JPEMicro.tab

File 1 is a STATA .do file for reproducing the results. The rest are the data files that are called upon in the .do file for reproducing the results. To replicate the data analysis, download all four files and save them in the same repository. Then run the .do file with STATA.
