The enclosed data and code replicates all tables and graphs in « Immigration and Preferences for Redistribution in Europe» by Alberto Alesina, Elie Murard, and Hillel Rapoport.

Please cite this paper if you use this code. All scripts may require modification of pathnames to match the user's file system.

The main dataset to replicate the tables and figures is replication_data_JEG.dta (STATA format)

Main_Tables.do is the do-file that replicates all the tables in the main text of the paper.
Main_Figures.do is the do-file that replicates all the figures in the main text of the paper.
semipar_X.do is an ado-file that includes the STATA command semipar to produce semi-parametric estimates.

Appendix_Tables.do replicates the tables in the online appendix of the paper.
Appendix_Figures.do replicates the figures in the online appendix of the paper.

immigstock_by_country.dta is the dataset at the country level that allows to replicate Figure A.1 and Figure A.2 in the online appendix.
