Readme file to replicate Tables and Figures in:
Bellés-Obrero and Lombardi. "Teacher Performance Pay and Student Learning: Evidence from a Nationwide Program in Peru". *Economic Development and Cultural Change*

The zipped file contains the do file necessary to replicate the results from this article. In particular, it contains the code used to generate the final dataset, and the code used to create the Tables and Figures using this dataset.

The replication material does not contain the datasets, since most of the data used in this paper was obtained from the Ministry of Education of Peru, and is not publicly available. Interested readers can apply for the data directly from the Ministry.

Any comments or questions related to these replication files can be directed to María Lombardi at mlombardi@utdt.edu
