The following files can be used to replicate all of the findings of "Choice Architecture to Improve Financial Decision Making."

CAtlFDM.do (compiled with State 14.2) contains the code to replicate all of the tables and figures corresponding to the experimental data in both the main text and online appendix. It operates on a proprietary .dta file CAtlFDM.dta containing the experimental data, which can be requested by interested researchers. Since this experiment was run by a Federal agency, the data belongs to the CFPB. Applications for appropriate research use, with details on how confidential information will be protected, can be made directly to their Office of Research. You may contact Dustin.beckett@cfpb.gov for additional details.

CU_Final.dta contains the code to replicate Figure 8 using the CU_Prepaid_Cards.dta

CFPBcomplaints.do replicates Figure 9 using a non-public version of the following Consumer Complaint Database https://www.consumerfinance.gov/data-research/consumer-complaints/. Access to the non-public, proprietary version, containing identifying information about GPR product name, is only available through the CFPB, and, can be accessed as noted above.
