Description

This dataset contains data on replacement wages for ILO-recommended volunteer activities in the Czech Republic from 2011 to 2022. The data was collected from the Czech Average Earnings Information System.

Files Included

- **Replacement wages in the Czech public sector for the ILO recommended replacement wages (.csv)**: The replacement wages for the ILO recommended replacement wages from 2011 to 2022 based on the labor statistics from the public sector. Data in this sector is usually more precise, but it is also the more regulated part of the economy.
- **Replacement wages in the Czech private sector for the ILO recommended replacement wages (.csv)**: The replacement wages for the ILO recommended replacement wages from 2011 to 2022 based on the labor statistics from the private sector. Data in this sector is usually less precise (the data also include estimates of quality, but it is also the less regulated part of the economy, so it reflects the market situation more than the public sector.
- **Number of employees (.csv):** Number of employees (in thousands) from 2011 to 2022 in a profession of replacement wages to the ILO recommended volunteer categories for the public and private sectors.

Methodology

Data was collected from the Average Earnings Information System and processed in Excel. Hourly replacement wages were calculated by dividing the hourly earnings in each sector and profession by the number of paid hours per month.
