Project Code: BYUC0034
Project Name: American Family Survey
Prepared for: Jeremy Pope
Interviews: 3000
Field Period: August 03, 2023 - August 15, 2023
Project Manager: Sara Sermarini (sara.sermarini@yougov.com)

```

YouGov interviewed 3044 respondents who were then matched down to a sample of 3000 to produce the final dataset. The respondents were matched to a sampling frame on gender, age, race, and education. The sampling frame is a politically representative "modeled frame" of US adults, based upon the American Community Survey (ACS) public use microdata file, public voter file records, the 2020 Current Population Survey (CPS) Voting and Registration supplements, the 2020 National Election Pool (NEP) exit poll, and the 2020 CES surveys, including demographics and 2020 presidential vote.

The matched cases were weighted to the sampling frame using propensity scores. The matched cases and the frame were combined and a logistic regression was estimated for inclusion in the frame. The propensity score function included age, gender, race/ethnicity, years of education, region, own/rent residence, and Presidential vote choice. The propensity scores were grouped into deciles of the estimated propensity score in the frame and post-stratified according to these deciles.

The weights were then post-stratified on 2020 Presidential vote choice, and a four-way stratification of gender, age (4-categories), race (4-categories), and education (4-categories), to produce the final weight.

ED020_1	Public school battery -- Teachers and administrators in the public schools in my area generally share my values.
ED020_2	Public school battery -- The public school libraries in my area include books that should be removed because they are inappropriate.
ED020_3	Public school battery -- If any parent objects to a book in the public school library, that book should be removed, even if other parents like the book.
ED020_4	Public school battery -- It is important for public school libraries to have books that represent a variety of perspectives about controversial issues, even if it makes some people uncomfortable.
ED020_5	Public school battery -- Public schools should actively teach students $ED020_5_pipe.
ED020_7	Public school battery -- Questions of $ED020_7_pipe should be left to parents, not taught at school.
ED019_1	Sex Education -- Transgender athletes should only be able to participate in high school sports as the gender they were assigned at birth.
ED019_2	Sex Education -- I am satisfied with the level of sex education offered in public schools in my area.
ED019_3	Sex Education -- Sex education is an important topic for schools to teach, even if it makes some people uncomfortable.
ED019_4	Sex Education -- I feel comfortable discussing matters of sexuality and reproduction with my children.
ED019_5	Sex Education -- Public school teachers should use students' preferred pronouns, even if they are different from the student's sex at birth.
ED019_6	Sex Education -- The best place for children to learn about gender identity is at home.
ED019_7	Sex Education -- Parents should be barred from obtaining gender-affirming care for their children, such as hormone blockers or gender reassignment surgery.
ED019_8	Sex Education -- Public school students should be allowed to use the bathroom of their choice, regardless of the gender they were assigned at birth.
