Replication Instructions

These files contain all of the relevant replication information for the paper "Public opinion and the politics of the killer robots debate."

To replicate the tables and plots in the paper and online appendix, please do the following:

1. Download all of the files here into a folder.
2. Open DataGenerationAndResults.do in Stata
3. Insert your directory where it says [INSERT DIRECTORY PATH HERE]
4. Run the .do file

If you have any questions or difficulty replicating any of the results, please do not hesitate to contact me at horom (at) sas.upenn.edu
