A Gladiatorial Arena: Incivility in the Canadian House of Commons

Here is a list of the files contained in the replication files, along with a short description:

Code

Note: The scripts contain dependencies, so they should be run in the order they are listed.

1. `Transcripts.R`: This file contains the code to upload and format the Question Period transcripts from the House of Commons website.
2. `Transcripts_Date.R`: This file contains the code to upload and extract the data of meetings from the House of Commons website.
3. `Perspective.R`: This file contains the code to process the Question Period transcripts through the Perspective API.
4. `Analysis 1.R`: This file contains the code to replicate the analysis presented in the body of the paper and some of the elements in the Online Appendix.
5. `Analysis 2.R`: This file contains the code to replicate the analysis of the Question Period transcripts in French reported in the Online Appendix.
6. `Analysis 3.R`: This file contains the code to replicate Figures G2 to G5 in the Online Appendix.

Data

Note: These files are generated using the previous scripts. They are enclosed in replication files for comparison purposes.

1. `df_Date.Rdata`
2. `df_English.Rdata`
3. `df_French.Rdata`
4. `df_Weekly_English.Rdata`
5. `df_Weekly_French.Rdata`
6. `df_Weekly_Language_English.Rdata`
7. `df_Weekly_Language_French.Rdata`
8. `prsp_English.Rdata`
9. `prsp_French.Rdata`
