Replication instructions for "'Men's parties', but with more active women: Gender and party activism in the populist radical right"

Sofia Ammassari

Published in *Comparative Political Studies*

To replicate the analyses in the article, please ensure the following:
- Use R Studio Version 4.4.3 (or a more recent version)
- Save all files – the two datasets ("Dataset.xlsx" and "Dataset_rfj.xlsx") and five R scripts – in the same folder

The codebook for the datasets can be found in Appendix D of the article.

Run the code "First code – Preliminary analysis.R" to replicate the following:
- **Main text:** Table 1
- **Appendix:**
  - **C:** Tables C1-C6
  - **E:** Tables E1-E7; Figures E1-E2
  - **F:** Tables F1-F8

Run the code "Second code – Mediation analysis.R" to replicate the following (please note that you need to have run the first code prior to this operation):
- **Main text:** Tables 2-5
- **Appendix:**
  - **E:** Tables E8-E11
  - **F:** Table F9-F18

Run the code "Third code – Further RCs.R" to replicate the following (please note that you need to have run the first code prior to this operation):
- **Appendix:**
  - **F:** Tables F19-F23 and F26a-F28

Run the code "Fourth code – RC with reasons for joining" to replicate the following:
- **Appendix:**
  - **E:** Table E10
  - **F:** Table F24-F25

Run the code "Fifth code – Figures.R" to replicate the following (please note that you need to have run the first and the second codes prior to this operation):
- **Main text:** Figures 2-3
