This folder contains the files to construct all tables and figures in the paper "From hospitality to hostility: Impact of the Rohingya refugee influx on the sentiments of host communities," except for Figure 1, Appendix Figure B1, and Appendix Table B2.

For Figure 1, while we collected and used GIS code from each sample household, we do not disclose the information to secure the anonymity of the sample households.

For Appendix Figure B1 and Appendix Table B2, while we used the Household Income and Expenditure Survey (HIES) 2016 data for additional balance checks as explained in Appendix B, we do not have permission to publicize the data.

"higuchi_et_al.dta" file contains part of the data we originally collected. The data contains all the variables needed to construct the tables and figures.

"higuchi_et_al.do" file contains the Stata do-file for producing the tables and figures.

"fdr_sharpened_qvalues.do" file contains the Stata do-file for computing Anderson's q-values. This file was downloaded on 29 January 2024 from;
