Hi again Alex,

I have reached out to our Research and Evaluation team with your request. They are best suited to pull this kind of information in a comprehensive spreadsheet like you described.

While able to provide two different spreadsheets, I am afraid neither are *exactly* what you asked for. Hopefully you will still find them helpful as you continue to conduct your research.

The first one covers POWER through FY22, it does not specifically show which counties are in which states (i.e. it shows which states are in the service area and a list of counties, but not which counties are in which state).

The second one (cumulative POWER as of 3-11-22), may be helpful because there is a list of projects at the top that are color coded by projects that have different parts.

For example these are different parts of the same project:

PW-18625-I

PW-18625-C1

PW-18625-C2

And these are two parts of another project:

PW-18728-BM

PW-18728-AM

Please let me know if you have any questions or if there is anything else I can do for you. If not, I wish you the best of luck in your studies and whatever else lies ahead!

Thanks,

Laura

You don't often get email from agazmararian@princeton.edu. Learn why this is important
