The "**Replication**" folder contains the following files:

- "1.Data" is a folder containing datasets. "rtm.csv" and "data.csv" are the two datasets for the main analysis. "rtm.dta" and "data.sav" are the raw datasets.
- "2.Coding" is a folder containing "rtm_coding.R" and "Korea_coding.R". These are the R scripts of codings for the pre-processing, estimations, figures, and tables.
- "3.Outputs" is a folder that contains figures for the main text and appendix.
- "4.ReadMe.pdf" is a PDF file containing descriptions of the items in the data replication folder.
