Replication material for "The effect of COVID-19 lockdowns on political support: Some good news for democracy"

Damien Bol* Marco Giani† André Blais‡ Peter John Loewen§

Forthcoming in European Journal of Political Research

- The file Data.dta includes all data necessary for the replication of the paper, including the Appendix. The additional packages are included at the beginning of the Main.do file.
- The File Main.do replicates the three subfigures of the main Figure in the body of the paper.
- The file Appendix.do replicates the Figures and Tables presented in the online appendix.
