Convect Precipitation, LV Watershed, raster, 1/2004 - 12/2014

Reference Information and Units:

GCS: SR-ORG:14 (http://spatialreference.org/)
Projection: Data has not been projected.
Pixel Size: ~0.5 degree at the equator
Units: millimeters (mm), negative values are NoData

File Naming Convention:

CPMMYY

Data Origin:

Original dataset was downloaded from:
http://disc.sci.gsfc.nasa.gov/services/opendap/TRMM/trmm.html

Sensor:

PR, TMI, VIRS

Tropical Rainfall Measuring Mission (TRMM) gridded data was used to develop this product. Data values are averaged over the collection period to create monthly averages.

Code:

NA

Data Development/Processing:

NA
