****

File: ReadMe.pdf
Date: 12/20/2020
Author: Yotam Margalit and Omer Solodoch
Note: This file documents how to replicate the results presented in "Against the Flow: Differentiating Between Public Opposition to the Immigration Stock and Flow"

****

Stata and **R** are required to replicate the results. Analyses were conducted in Stata/SE 15.0 and R version 3.6.0.

The following packages are required for the replication in Stata (use the "ssc install" command):

- ebalance

The following packages are required for the replication in R (use the "install.packages" and "library" commands):

- tidyverse
- readxl
- directlabels

The replication package contains the following files:

- **ReadMe.pdf**: this file
- **flowstock_replication.dta**: Main dataset of the survey experiment.
- **flowstock_cjoint_replication.dta**: Long format of the data with the conjoint experiment.
- **flowstock_ANES.dta**: data from the American National Election Study, 2018.
- **flowstock_replication_BJPolS.do**: produces all tables in the main manuscript and the appendix, and the data used for generating the Figures.
- **flowstock_replication**.**R**: produces all figures in the main manuscript and the appendix based on the following data files that contain the results from flowstock_replication_BJPolS.do:
- **flows_Fig1data**.xlsx
- **flows_Fig2a_data**.xlsx
- **flows_Fig2b_data**.xlsx
- **flows_Fig3_data**.xlsx
- **flows_Fig4_data**.xlsx
- **flows_Fig5_data**.xlsx
- **flows_Fig6_data**.xlsx
- **flows_Fig7_data**.xlsx
- **flows_Fig8_data**.xlsx
- **flows_FigA2_data**.xlsx
- **flows_FigA3_data**..xlsx
