province
The name of the province-level spatial unit.

acledclash
A count of ACLED "Clashes" for a given province-month.

ged_events
A count of GED "Events" for a given province-month.

gtdtotalattacksterr
A count of GTD "Attacks" for a given province-month.

dronesmintrikes1
A count of airstrikes for the preceding province-month.

dronesmintrikes_countrycum
A cumulative count of airstrikes, across the country, for a given province-month. (Divided by 100)

dronesminterkilled1
A count of insurgents killed by airstrikes for the preceding province-month.

dronesminterkilled_countrycum
A cumulative count of insurgents killed by airstrikes, across the country, for a given province-month. (Divided by 100)

dronesmincivkilled1
A count of civilians killed by airstrikes for the preceding province-month.

dronesmincivkilled_countrycum
A count cumulative of civilians killed by airstrikes, across the country, for a given province-month. (Divided by 100)

geddeathsterrorists1
A count of insurgents killed in GED "Events" for the preceding province-month.

geddeathsterrorists_countrycum
A cumulative count of insurgents killed in GED "Events," across the country, for a given province-month. (Divided by 100)

geddeathsgovernment1
A count of insurgents killed in GED "Events" for the preceding province-month.

geddeathsgovernment_countrycum
A cumulative count of insurgents killed in GED "Events," across the country, for a given province-month. (Divided by 100)

any_resources
A dichotomous indicators {0,1} for the presence of natural resources in a given province.

acledclash1
A count of ACLED "Clashes" for the preceding province-month.

ged_events1
A count of GED "Events" for the preceding province-month.

gtdtotalattacksterr1
A count of GTD "Attacks" for the preceding province-month.

pak
A dichotomous indicators {0,1} for Pakistan.

somalia
A dichotomous indicators {0,1} for Pakistan.

yemen
A dichotomous indicators {0,1} for Pakistan.

terrorist_presence_any1
A dichotomous indicators {0,1} for insurgent presence. See manuscript for details.

acledsample
A dichotomous indicators {0,1} for the ACLED sample of observations (required due to temporal scope).

gedsample
A dichotomous indicators {0,1} for the ACLED sample of observations (required due to temporal scope).

gtdsample
A dichotomous indicators {0,1} for the ACLED sample of observations (required due to temporal scope).

acledtime
A cumulative count of months transpired for the ACLED sample of observations (required due to temporal scope).

gedtime

A cumulative count of months transpired for the ACLED sample of observations (required due to temporal scope).

gtdtime
A cumulative count of months transpired for the ACLED sample of observations (required due to temporal scope).

Note:
Variables with "_splag" attached denote spatially lagged variables. (Models 4-6)
