Replication materials for *"Incentivizing anticorruption reform: Evidence from a natural experiment in Mexican subnational legislatures."*

This folder includes the following replication materials:

1. A folder with all the necessary datasets to reproduce the main and supplementary in the appendix. Datasets include information on local deputies and anticorruption initiatives introduced to state legislatures in Mexico.

2. A codebook describing the content and variables in each dataset.

3. A folder with replication materials for the main findings ("Main replication file.R") and the appendix ("Appendix replication.R").

4. The original online appendix of the article.
