HI Stacia,
Given the length of time since the study publication, I am so sorry that I no longer have a copy of the original questionnaire but we used a 10-cm visual analog scale with question-appropriate anchor comments at each end of each scale (for example: not at all useful at one end and very useful at the other end) as well as an open comment section after each one of the questions that are in Table 5 of the study. Please feel free to use or adapt for your study. Best of luck!
Beth

Dear Stacia:

Thank you for your email. Yes, you are welcome to use the survey and adapt it as needed, citing the original source. I have attached a copy of the survey.

Good luck with your project.

Regards

Ed Giesbrecht
