State Hydrocarbon Rents, Authoritarian Survival and the Onset of Democracy: Evidence from a New Dataset

Viola Lucas & Thomas Richter

Data and Replication Information Meta-Document

Statistical analysis for this paper has been conducted using Stata/SE 14.1 for Mac (64-bit Intel). Only standard regression techniques like logistic regression and OLS have been used.

The uploaded replication material contains four different files:

1) *StateHydrocarbonRent.dta*, which is the body of data used for the analysis.

2) *StateHydrocarbonRents*, which ist the Stata do-file. All parts of the analysis as well as the generation of all tables and figures are included here.

3) *StateHydrocarbonRents.log*, which is the respective log-file generated during the statistical analysis.

4) *Wrightetal_Data.dta*, which is the original data used by Wright et al. (2015).
