THE LOS ANGELES METROPOLITAN AREA SURVEY

(LAMAS)

SURVEY RESEARCH CENTER, UNIVERSITY OF CALIFORNIA,
LOS ANGELES

THE LOS ANGELES METROPOLITAN AREA SURVEY (LAMAS)

The Los Angeles Metropolitan Area Survey, inaugurated in the spring of 1970, is a shared-time omnibus survey of Los Angeles County community members, usually repeated twice a year. LAMAS enables research investigators from universities, governmental agencies (at all levels), and research institutes to obtain data from a representative sample of 1,000 Los Angeles metropolitan area households (city and county) in a more efficient and economical fashion than is possible if each researcher conducts an independent survey.

The cost of participating in LAMAS is on a per question basis, as discussed below, and the contributing researcher receives the results pertaining to his specific questions, plus background data. Shared-time omnibus surveys are not only economical; by reducing the number of independent surveys in the field, they can help minimize the strains aroused in communities whose members feel they have been oversurveyed.

Although each survey is designed to meet the varied needs of contributing researchers, an important LAMAS goal is the development of a set of standard "community profile" measures appropriate for use in studies connected with the planning and evaluation of public policy and action programs. The social profile variables include attitudes and perceptions of living conditions in the neighborhood and of its program needs. A predominant theme in the Center's contribution to the instruments is the inclusion of indexes and scales for "tracking" the development and course of social indicators and the impact of public policy on the community. These social indicators, including social, psychological, health, and economic variables, permit measurement of social change at semiannual intervals and, thus, analysis of short-and long-term trends in the quality of life at the regional level. LAMAS provides an opportunity to investigate specific trends in both the city and Los Angeles County.

In addition to trend studies of attitudes and behaviors, LAMAS provides for panel studies of subsamples of the population. In such studies, the focus is on both probability and purposive construction of panels of respondents to permit more intensive exploration of key social problems than is possible either in a single survey or in analysis of trends in survey results.

USES OF LAMAS

The strength of LAMAS stems from its highly unclustered sample design and the varying types of areal aggregation such samples permit. Data from 100 sampling points in the county can be aggregated at the following levels:

1. Los Angeles County as a whole
2. The city of Los Angeles
3. Independent cities in Los Angeles County
4. Specialized subareas (e.g., county health districts, law enforcement reporting districts, hospital service areas, etc.)

Several studies conducted by the Survey Research Center have used LAMAS data for comparative purposes.

Model Neighborhood Survey. In the spring of 1971, the Center conducted a survey of the Willowbrook/Florence-Firestone communities for the Los Angeles County Model Neighborhood Agency. The survey was to provide baseline data on community conditions (e.g., employment, income, education, health, housing, crime, etc.) to permit assessment of the effects of Model Neighborhood programs after the five-year demonstration period. The same data were gathered from county residents (LAMAS III) to serve as a "control" for county-wide changes that might influence conditions in the model neighborhood independent of program effects. More important, county data were used to establish levels of relative deprivation suffered by model neighborhood residents as a result of their low-income and minority status. The data showed clear differences between county and model neighborhood residents in levels of income, education, employment and occupational status, and in their assessments of the quality of life. Even controlling for minority status (black and Mexican-American) within the county, some differences remain which suggest particular effects of residence in the model neighborhood area (South Central Los Angeles). For example, model neighborhood blacks are more negative about the quality of police protection they receive than are blacks in the county as a whole.

Alcohol Safety Action Project. In the spring of 1972, as part of LAMAS (LAMAS V), the Center conducted the first of four studies on drinking and driving behavior. Los Angeles is one of twenty-six cities in the United States in which this research is being conducted. The project is administered locally by the Alcohol Safety Action Project (ASAP), a consortium of public and private agencies concerned with problems arising from drinking and driving. A four-year research program in LAMAS is planned; in addition to providing descriptive data, we will attempt to evaluate the effects of an ASAP campaign to publicize the dangers of drinking and driving.

Health Care Needs Study. In the spring of 1973, as part of LAMAS (LAMAS VI), the Los Angeles County Department of Health Services and the Comprehensive Health Planning Council of Los Angeles County conducted a survey designed to assess the health status and physician-use patterns of county residents. The survey was undertaken so that county health professionals could generate estimates of frequency and types of illness; disability days; physician, dental, and mental health visits; unmet needs for health service; days of hospitalization; and use of public and private health, hospital, and mental health services. The data will be used to develop specific policy alternatives regarding the expansion, modification, and allocation of resources to current and future health delivery systems. A report of the findings and recommended policy decisions based on the data will be presented to the Los Angeles County Board of Supervisors.

TECHNICAL OPERATIONS

Sampling

The Survey Research Center has recently redesigned its sample of households in the Los Angeles metropolitan area, using the most current Census data. LAMAS utilizes a multistage, stratified probability sample with the following characteristics:

1. Los Angeles County is divided into ten geographic regions: (a) four regions in the city of Los Angeles; (b) one region composed of all unincorporated areas of the county; (c) one region that includes the city of Long Beach; and (d) four other regions: the western, southeastern, eastern, and northeastern municipalities.

2. Block groups in each region are stratified by housing value, percentage owner-occupied, and percentage nonwhite.

3. 100 block groups are sampled from the ten regions.

4. Two block clusters are drawn from each of the 100 block groups, and an address file of 40,000 dwelling units has been compiled. Household respondents are selected according to the method described in Leslie Kish, Survey Sampling, (Wiley, 1965), pp. 396-404.

The unclustered nature of the sample permits the Survey Research Center to oversample selected subpopulations (e.g., ethnic groups within LAMAS), as well as to undertake special studies of subpopulations within specified geographical areas of the county or city. (Additional charges for oversampling in LAMAS or special studies are arranged in conference with the individual investigator.)

Computer Sampling

The Survey Research Center has developed a general computer software package for sampling, using 1970 Census tapes. This package makes it possible to draw an area probability sample at reduced cost for any county in California as well as in the rest of the United States.

Field Operations

A. Procedures

Survey Research Center interviewers are well trained and closely supervised throughout the field process. For example, interviewers are assigned a list of dwelling units and required to select respondents from dwelling units, using strict probability methods; they have been specially trained in the use of this probability selection procedure, and results are closely monitored by central office supervisors. In addition, basic

interviewer training includes workshops and practice interviewing. All instruments fielded by the Center are subjected to a pretest process. Following a final briefing on a specific study, interviewers are permitted to take only one interview before returning to the office for a discussion with the field supervisors. Interviewers are requested to make three calls in order to secure a response, including night and weekend calls. Escorts are provided during unusual hours to maintain an acceptable response rate.

Every instrument is edited and checked for quality immediately upon its arrival at the Center to ensure completeness and accuracy. In addition, approximately 20 percent of the field staff's work is verified in ten-minute interviews with respondents, conducted by telephone when possible but at the homes of respondents when that is the only means by which they may be reached. The verification rate varies with the experience of the interviewer and the complexity of the instrument design and is always higher during the initial stage of a study.

B. Bilingual Research

The Survey Research Center has embarked on a special program for recruiting and training bilingual interviewers who work in the large Mexican-American community of Los Angeles. The Center provides Spanish-language versions of all materials, and interviews are always taken in Spanish when appropriate; bilingual supervisory and quality-control staff work closely with these interviewers.

Data Reduction

LAMAS data are reduced in two stages. In the first stage, precoded questions are edited and punched for analysis purposes on IBM cards from the questionnaire. The precoded questions are then passed on to the data processing section for analysis. This process considerably shortens the time required to produce output, and precoded questions are available for analysis within five weeks after completion of the field operation.

Open-ended questions are coded in the second stage. If the client has submitted open-ended questions, he or she is encouraged to consult with our coding section as they construct the coding frames. During the first week of coding, 100 percent of each coder's work is checked by the supervisor and independent work discussions are commonplace. Twenty percent of the open-ended questions are double-coded, and intercoder reliability figures are reported.

Data Processing and Analysis

Two campus computing facilities are available to the Center's data analysis and programming staffs. Both facilities house IBM system 360, model 91s, and are accessible from interactive terminals at the Center.

LAMAS data are processed using the Statistical Package for the Social Sciences (SPSS). This is a flexible, user-oriented, data manipulation package available for editing, screening, documenting, and transforming a data set

preparatory to making statistical analyses and is particularly useful for the analysis of survey data. Statistical analyses include correlation, nonparametric statistics, regression and multiple regression, Guttman scaling, and a fast factor analysis program.

For the cost of the initial question, the investigator will be given the following statistical output: frequency distributions ("marginals") of the results of the questions contributed by the investigator, and cross-tabulations of these questions by SEX, AGE, INCOME, EDUCATION, ETHNICITY or RACE, and OCCUPATION. *If the investigator has five or more questions, he or she may obtain the data with background variables in the form of punched IBM cards, card-image tape, or an SPSS system file.* Statistical analyses other than those mentioned above can also be performed at the request of the investigator at a negotiated additional cost. Second-, third-, and fourth-count U.S. Census data for the Los Angeles metropolitan area are concatenated with the individual-level data collected through LAMAS and can be provided to the client, again at a negotiated additional cost.

Aggregate Data and Survey Data

The Center has developed a software package for accessing DUALabs Census tapes which considerably reduces the costs of using Census data. The program will selectively decompress only those geographical areas and/or data tables specified by the user, bypassing data he does not want. In addition, the data can be output for processing through standard software packages available on campus (e.g., SPSS, BMD, DATATEXT). Census data combined with survey data from LAMAS expand the data base available to the client and can provide contextual information to complement survey data. In addition, aggregate and survey data can be combined so that relationships between these two levels of data can be examined.

SAMPLE QUESTIONS FOR ESTIMATING COST

ONE PRE-CODED QUESTION

Now, thinking back to your recent illnesses or injuries--in the past two months did you have any illness that kept you in bed, indoors or away from your usual activities?

yes 1
no 2

ONE PRE-CODED QUESTION WITH SEVERAL POSSIBLE RESPONSES

Do you have any of the following types of medical coverage or health incurance?

Blue Cross (Blue Shield) 1
Kaiser-Permanente 2
Ross-Loos 3
Equitable Insurance 4
Occidental 5
Medicare 6
Medi-Cal 7
other 8
SPECIFY: _____
none 9

PRE-CODED QUESTION LIST--ONE PART = 1/2 QUESTION, 2 PARTS = ONE QUESTION

We are interested in the way people are feeling these days. During the past few weeks did you ever feel:

	YES	NO	DON'T KNOW
A. pleased about having accomplished something?	1	2	8
B. very lonely or remote from other people?	3	4	8
C. that things were going your way?	5	6	8
D. upset because someone criticized you?	1	2	8
E. on top of the world?	3	4	8
F. so restless that you couldn't sit long in a chair?	5	6	8

	YES	NO	DON'T KNOW
G. bored?	1	2	8
H. proud because someone complimented you on something you had done?	3	4	8
I. depressed or very unhappy?	5	6	8
J. particularly excited or interested in something?	1	2	8

PRE-CODED SORT OPERATION--EACH PART = 1 QUESTION

You hear a lot of talk these days about what might happen if the population of the United States keeps growing. I have some cards here which have on them some of the things people say could happen if the population keeps growing. I would like you to read these cards and put them into three pockets: in one pocket, statements you think are true or probably true and in another pocket, statements you think are not true or probably not true. If you cannot decide about any of these statements, then put them in the pocket labeled "cannot decide." (HAND CARDS TO R. GIVE R TIME TO SORT.)

TIME BEGINNING: _____

TIME ENDING: _____

A. This country is large enough so that if we build new towns and cities out in the countryside there will be enough space for us even if the population gets much larger.

true 1
not true 2
cannot decide 8

B. If the population of the country gets much larger, air and water population problems will get much worse and will be very difficult to solve.

true 1
not true 2
cannot decide 8

C. If the country's population gets much larger, we will not have enough food to feed all the people.

true 1
not true 2
cannot decide..... 8

D. How large our population becomes has little to do with whether we can solve other social problems like poverty, crime and slums.

true 1
not true 2
cannot decide 8

E. Even if the population gets much larger, we can find ways to produce enough food to feed all of the people in this country.

true 1
not true 2
cannot decide 8

F. The number of people in a country does not have much to do with whether there is a pollution problem. Pollution is caused mostly by other things.

true 1
not true 2
cannot decide 8

G. Unless we do something to keep this country's population from getting larger, we will <u>not</u> be able to solve problems like poverty, slums and crime.

true 1
not true 2
cannot decide 8

H. If this country's population gets much larger, we will run out of useable open space and have to live under very crowded conditions.

true 1
not true 2
cannot decide 8

ONE OPEN-ENDED QUESTION--NUMERIC RESPONSE, NO SURCHARGE

Since you first moved to the Los Angeles <u>area</u>, how many times have you moved from one house or apartment to another?

NUMBER OF MOVES:_____

<u>ONE</u> OPEN-ENDED QUESTION, SURCHARGE FOR DATA REDUCTION

Let's say that you are a driver. A traffic policeman stops you and claims that you have broken a traffic law. He wants to give you a ticket. What would you do?

_____

ONE OPEN-ENDED QUESTION WITH RESPONSE DESIGNATIONS: TWO DESIGNATIONS = ONE QUESTION: EACH ADDITIONAL DESIGNATION = 1/2 QUESTION, SURCHARGE FOR DATA REDUCTION

Now, thinking about problems we have here in Los Angeles area (city and county): What do you think are the most important problems we have here in the Los Angeles area?

(1)_____

(2)_____

(3)_____

(4)_____

(5)_____

(6)_____

PRE-CODED RATING SCALE--EACH PART = 1 QUESTION

Now, from what you have just heard, how honest or dishonest a businessman would you say this car dealer is? Here is a card with "very dishonest"--number one--at one end, and "very honest"--number seven--at the other end. You may use any number on the scale. Would you look at this scale and tell me which number comes closest to how you feel?

A. Please tell me which best represents how honest or dishonest you feel the car dealer has been:

Very dishonest 1 2 3 4 5 6 7 Very honest

B. Now, here is another card which has another scale. Tell me a number which best represents how wise or foolish you think the car dealer is.

Very wise 1 2 3 4 5 6 7 Very foolish

C. Here's another card: how unyielding or yielding would you say the car dealer is?

Very unyielding 1 2 3 4 5 6 7 Very yielding

D. How cooperative or competitive would you say the car dealer is?

Very cooperative 1 2 3 4 5 6 7 Very competitive

E. And how unfair or fair?

Very unfair 1 2 3 4 5 6 7 Very fair

F. And how hard or soft would you say this car dealer is?

Very hard 1 2 3 4 5 6 7 Very soft

G. How active or passive would you say he is?

Very active 1 2 3 4 5 6 7 Very passive

H. And finally, how selfish or generous would you say this man is?

Very selfish 1 2 3 4 5 6 7 Very generous

ONE PRE-CODED QUESTION AND ONE OPEN-ENDED QUESTION, WITH SURCHARGE

Suppose the number of people in the Los Angeles area were twice as large as it is today--suppose there were fourteen million people in this area, instead of seven million. Do you think your own life would be different if there were twice as many people living in the Los Angeles area or do you think your own life would be about the same as it is today?

different..... ASK A..... 1
same as now..... 2

A. How would it be different?

SPECIAL SURCHARGES

The LAMAS staff will negotiate specific surcharges under the following conditions:

1. Complex and/or lengthy questions with a number of response options.

2. Computer rotation of a question or questions (e.g., Question X to be asked of half the sample, Question Y to be asked of other half).

3. A question or questions which require the interviewer to read extended information before eliciting a response.

Survey Costs and Economies of Scale

The costs of research in major metropolitan areas are rising at a time when the need for data on urban areas is both urgent and increasing. Costs for independent surveys range from $50 to over $100 per case. Highly clustered samples do not save costs, have little flexibility, and can be challenged in terms of their capacity to represent a large, heterogeneous area such as Los Angeles County. Highly unclustered samples provide better coverage of the population but are quite expensive. The LAMAS sample is moderately unclustered and survey costs are reduced because of economy of scale. For example, a $10,000 input to LAMAS will provide data at an average cost of $10 per case for a sample of 1,000. As mentioned above, the investigator receives marginals on all his data as well as cross-tabulations with major background variables. The LAMAS staff continuously monitors the quality of information obtained from these background questions (e.g., occupation, education, income) and will modify them to increase their reliability and validity. Such work saves the investigator time in question construction and instrument evaluation and provides high-quality data to relate to his variables of interest.

COST SCHEDULE

Number of Questions (Precoded)	Questions to be Asked of Total Sample	Questions to be Asked of Predetermined Major Sub-populations*
1	$ 600 - $ 800	$ 480 - $ 600
2	$1200 - $1600	$ 960 - $1200
3	$1800 - $2400	$1440 - $1800
4	$2400 - $3200	$1920 - $2400
5	$2820 - $3700	$2150 - $2820
Each additional pre-coded question	$ 450 - $ 500	$ 360 - $ 450
Surcharge for each free response or open-ended question	$ 300 - $ 500	$ 240 - $400

*Must be predesignated in interview schedule, e.g., Los Angeles city residents only, men only.

SPECIAL LAMAS CONSULTATION

The costs outlined above are designed to cover the fielding, editing, coding, cleaning, and processing of a fully developed set of questions submitted by the client. Center staff are available on a consulting basis to clients who need or would like special assistance with the developmental aspects of their research. In this case, the client will deposit an additional amount with the Center, apart from question costs as outlined above, to be used for special developmental purposes.

For further information, call LAMAS director at (213) 825-0711.

FROM: Mary H. and Vi

SUBJECT: The Truth about LAMAS Field Dates

After much head-scratching, soul-searching, and digging in the musty-dusty files of the Field Office, we are proud to announce that we have assembled the "true" facts (as opposed to facts based on dim memory and/or guesses) about all LAMAS field dates. This memo will supercede all previous memos about field dates so clean out your files, folks! Ready or not, here it comes:

LAMAS I : May 14, 1970 to July 10, 1970
LAMAS II : November 4, 1970 to January 20, 1971
LAMAS III : April 15, 1971 to June 12, 1971
LAMAS IV : October 12, 1971 to January 15, 1972
LAMAS V : March 13, 1972 to May 29, 1972
LAMAS VI : February 5, 1973 to March 20, 1973
LAMAS VII : October 22, 1973 to December 17, 1973
LAMAS VIII : February 11, 1974 to March 20, 1974

Stay tuned to this station for results on the ninth race of LAMAS.

LAMAS IX 9/16/74 - 12/2/74
LAMAS X 2/9/76 - 4/20/76

LOS ANGELES METROPOLITAN AREA SURVEY, SPRING 1972

(LAMAS V): LIST OF PARTICIPANTS

QUESTIONS	SUBMITTED BY:
1-4	Standard SRC Questions (Length of residence in L.A.)
5	Deborah Hensler (City vs. suburb)
6	Standard SRC Question (Intentions to move)
7	Standard SRC Question (Problems in L.A.)
8	Standard SRC Question (Problems in U.S.)
9X-9Y	Deborah Hensler and Francine Rabinowitz
10-12	Prof. Leo Reeder (Health items)
13	Alcohol Safety Action Program (ASAP) (weight)
14	Prof. Leo Reeder (Medical coverage item)
15	Standard SRC Question (Political party preference)
16	Prof. Leo Reeder (Psychological well-being scale)
17-21	Standard SRC Questions (Consumer finances series)
22	Pacific Southwest Universities Air Pollution Association (Anti-pollution measures)
23	Deborah Hensler and Francine Rabinowitz
24-51	Alcohol Safety Action Program (Activities, drinking and driving)
52	Standard SRC Question (I-E)
53-59	Western Regional School Desegregation Projects
60	Standard SRC Question (I-E)
61-71	Standard SRC Background Questions (Education, employment, occupation of R and head of household, regional background, religious affiliation, income and sources of income)
72	Did respondent receive letter informing him of survey
A through I	Background information (Sex of R, type of dwelling unit, ethnicity of R, R's interest during interview, sex of interviewer, language of interview, presence of other persons during interview, influence of other persons during interview, interviewer's rating of honesty of R's answers)

Good morning/afternoon/evening. I'm from the UCLA Survey Research Center. You may have received a letter from our Center telling you about the survey we are doing in Los Angeles. We are interested in finding out how people in the Los Angeles Metropolitan Area feel about the community, what problems there are and what is needed for the future. The information we collect will be written up in reports for local officials and in the local newspapers. Your opinions are very important because you have been chosen scientifically to represent hundreds of other people in Los Angeles. The more people who cooperate, the more successful we can be in reporting the needs of all the people in this city. EVERYTHING YOU TELL US WILL BE STRICTLY CONFIDENTIAL. YOUR NAME WILL NOT BE CONNECTED IN ANY WAY WITH THE FINDINGS OF THIS IMPORTANT STUDY.

A3. First, I would like to make a list of the persons 18 years old or over, who live here as members of your household. This will tell me which adult I am to interview. (AFTER RECORDING INFORMATION IN "A," ASSIGN NUMBERS IN "E" WITH OLDEST MALE = 1, SECOND OLDEST MALE = 2, ETC. AFTER ALL MEN ARE NUMBERED, CONTINUE WITH WOMEN BEGINNING WITH OLDEST TO YOUNGEST.)

8 - NEITHER, CAN'T CHOOSE
9 - DK, NA

52. (SHOW CARD #52A.) On this card is a pair of statements. I'll read them while you look at them, and then would you tell me which one is closer to the way you feel. (AFTER R CHOOSES, SHOW CARD #52B.) Here is another pair; which is closer to the way you feel? (AND SO ON FOR CARDS #52C-F.)

52 A. What happens to me is my own doing..... 1 69/ 282

or

Sometimes I feel that I don't have enough control over the direction my life is taking..... 2

---

52 B. Knowing the right people is important in deciding whether a person will get ahead..... 3 70/ 283

or

People will get ahead in life if they have the goods and do a good job; knowing the right people has nothing to do with it..... 4

---

52 C. I have often found that what is going to happen will happen..... 5 71/ 284

or

Trusting to fate has never turned out as well for me as making a decision to take a definite course of action..... 6

---

52 D. It is impossible for me to believe that chance or luck play an important role in my life..... 1 72/ 285

or

Many times I feel that I have little influence over the things that happen to me..... 2

---

52 E. Leadership positions tend to go to capable people who deserve being chosen..... 3 73/ 286

or

It's hard to know why some people get leadership positions and others don't; ability doesn't seem to be the important factor..... 4

---

52 F. There's very little that persons like myself can do to improve world opinion of the United States..... 5 74/ 287

or

I think each of us can do a great deal to improve world opinion of the United States..... 6

---

53. There has been a lot of talk recently about integrating public schools so that black, Mexican-American, and Anglo (Caucasian) children will attend the same schools. (SHOW CARD #53.) How do you feel about this, are you:

very favorable.....	1	07/
somewhat favorable..	2	
undecided.....	3	
somewhat opposed....	4	
very opposed?.....	5	

54. Some parents believe that children would not get as good an education in integrated schools, others feel that they would get a better education, and others don't think it would make any difference. How do you feel about this?

NOT AS GOOD EDUCATION....	1	08/
GET BETTER EDUCATION.....	2	
NO DIFFERENCE.....	3	

55. Some parents believe that integration would cause fewer behavior problems in class and on the playground, others feel that there would be more problems, and some think there would be no difference. How do you feel about this?

FEWER PROBLEMS.....	4	09/
MORE PROBLEMS.....	5	
NO DIFFERENCE.....	6	

56. Some parents believe that integration would cause more problems with social activities such as parties, school friendships, clubs, and the like--others feel there would be no more problems than now, and some feel there would be fewer problems. How do you feel?

MORE PROBLEMS.....	1	10/
NO MORE PROBLEMS THAN NOW.....	2	
FEWER PROBLEMS.....	3	

57. Some parents think the other children in integrated schools would be more friendly to their children, some think they would be less friendly, and others think it would not make any difference. How do you feel?

MORE FRIENDLY.....	4	11/
LESS FRIENDLY.....	5	
NO DIFFERENCE.....	6	

58. Some parents think the teachers in integrated schools would be more friendly to their children, others think they would be less friendly, and others think it would make no difference. How do you feel?

MORE FRIENDLY.....	1	12/
LESS FRIENDLY.....	2	
NO DIFFERENCE.....	3	

59. (SHOW CARD #59.) In some cities, black, Mexican-American, and Anglo families live in different sections of the city, so the only way schools can be integrated fairly quickly is for some of the children to ride school buses. How do you feel about this, are you:

very favorable..... 1 13/
somewhat favorable.. 2
undecided..... 3
somewhat opposed.... 4
very opposed?..... 5

60. (SHOW CARD #60A.) On this card is another pair of statements. I'll read them while you look at them, and then would you tell me which one is closer to the way you feel. (AFTER R CHOOSES, SHOW CARD #60B.) Here is another pair; which is closer to the way you feel? (AND SO ON FOR CARDS #60C-E.)

60 A. It is not always wise to plan too far ahead because many things turn out to be a matter of good or bad fortune anyhow..... 1 14/

or

✓ When I make plans, I am almost certain I can make them work..... 2

---

60 B. The world is run by the few people in power and there's not much the little guy can do about it..... 3 15/

or

✓ The average citizen can have an influence on government decisions. 4

---

60 C. It is only wishful thinking to believe that one can really influence what happens in society at large..... 5 16/

or

✓ People like me can change the course of world events if we make ourselves heard..... 6

---

60 D. The racial situation in America may be very complex, but with ✓ enough money and effort, it is possible to get rid of racial discrimination..... 1 17/

or

We'll never completely get rid of discrimination; it's part of human nature..... 2

---

60 E. As far as world affairs are concerned, most of us are victims of forces we can neither understand nor control..... 3 18/

or

✓ By taking an active part in political and social affairs, the people can control world events..... 4

---

61. Now, we'd like to ask you some general questions about education and employment. What was the highest grade in school you completed?

00 01 02 03 04 05 06 07 08 09 10 11 12

COLLEGE/OTHER POST HIGH SCHOOL SCHOOLING 13 14 15 16 19-20/

POST GRADUATE SCHOOL 17 18 19 20 OR MORE:

POST GRADUATE DEGREE?

NO..... 1 21/ 61-1
YES..... 2
SPECIFY:_____

IF R HAS COMPLETED LESS THAN 12 YEARS OF EDUCATION, ASK A

61 A. Do you have a General Education Diploma (GED)?

YES..... 3 22/
NO..... 4

62. What is your current employment status, are you:

8.
9.

working full-time.....SKIP TO Q63... 01 23-24/
working part-time.....SKIP TO Q63... 02
unemployed.....ASK A..... 03
retired.....SKIP TO Q63... 04
keeping house.....ASK A..... 05
in school.....ASK A..... 06
something else?.....ASK A..... 07
SPECIFY:_____

62 A. Have you ever been employed?

YES..ASK Q63..... 1 25/
NO...SKIP TO INSTRUCTIONS BEFORE Q66. 2

63. What kind of work do/did you do? (e.g., electrical engineer, stock clerk, typist, farmer, etc.) PROBE IF VAGUE: What do/did you actually do?

26-28/

64. What kind of business or industry are/were you employed in? (major occupation)

_____

65. Do/did you supervise the work of other people?

YES..... 3 29/
NO..... 4

INTERVIEWER, CIRCLE ONE:

66X

R IS WIDOW.....ASK ABOUT FORMER SPOUSE IN Q66A1-D.....	1	30/

yes, most of the time....SKIP TO H... 4
yes, part of the time....SKIP TO H... 5
no.....SKIP TO I... 6

13/

Q_H. How much influence did that person(s) exert on the Respondent?

great.....EXPLAIN ON BACK, P24... 1
moderate.....EXPLAIN ON BACK, P24... 2
little or none..... 3

14/

Q_I. How honest do you feel the Respondent's answers were?

very honest..... 4
somewhat honest..... 5
not very honest..... 6

15/

CODER I.D._____ 16/17

Q.22(A1,2,3) Briefly describe why you believe each of these measures is particularly important.
DECK 06, COLUMNS 15-26 Code up to 2 reasons per line. LAMAS V

RR-Inapp. (no preference given in cols.09-14 OR no further mention)

POLLUTION

10-Air pollution,smog reduction,general (code only if no other reason given)-it would cut down on smog to me;

11-Reduce specific chemicals in air (code only if no other reason given)-Take hydrocarbons out of air;

TRAFFIC REDUCTION

20-Reduce traffic,unspecified-it would cut down traffic;

21-Reduce number of cars,unspecified type-reduce number of vehicles on road; less cars;

22-Reduce number of old,used cars-get rid of clunkers;smokey ones eliminated or fixed;

23-Reduce number of buses-

24-Reduce number of trucks-

25-Improve traffic flow (time orientation)-would help stagger air pollution-wouldn't be all at once;not so many cars on the road at one time would eliminate congestion;

26-Less congestion (space orientation)-to eliminate the congestion and pollution;

VEHICLE CONTROL

30-Control,improve mechanical condition of vehicles,general-because people have tendency to leave cars in poor condition on road;many unfit cars in road;pinpoint dangers before they become major problems;

31-Need to control,inspect old,used cars-the older the car the more poor the condition of the car-it should help;it's older cars that usually smoke; would check to see condition of cars;help reduce smog due to older cars, they cause most pollution;

Q.22 (A1,2,3) Cont'd.

32-Safety,less accidents-we wouldn't have so many car accidents;this helps you to maintain a safe car;

33-Pollution control devices in working order,etc.,specifically-less likely to cheat/make sure smog device is on;those cars most trouble to diminish need smog device;

PUBLIC TRANSPORTATION

40-Expand,improve public transportation,rapid transit,general-rapid transit would also take some cars off the roads;good public transportation would reduce number of cars;people nervous driving freeway, need transportation public;

41-Expand,improve buses,use of buses-maybe if more buses and more frequent maybe people would use them more,have to wait an hour for buses now;

42-Stimulate development of monorail-in order to build monorail;

43-Stimulate development of steam bus-Bus can be powered by steam, so not pollute air,take more cars off road,leading up to a permanent solution, good action,they are only stop gaps to a final solution;

44-

FUEL

50-Improvement of fues,quality of gasoline-because that would have cars burning clean;make the car burn cleaner,lower the lead in the gas;

51-Development of fuel substitute,general-low polluting fuels would obvious reduce smog and air contamination;

52-Development of propane,natural gas as fuel substitute-the natural gas makes a difference in fumes;natural gas I understand don't cause much pollution;

53-Development of steam as fuel substitute-

VEHICLE DEVELOPMENT

60-Develop new type of engine,car,general-

61-Develop non-polluting engine,cars-they should stop producing cars tha pollute;

62-Develop less polluting engine,cars-

63-Develop steam engine,car-Should make an(electric)or steam running car and stop air pollution;

64-Develop electric car-should make an electric (or steam) running car and stop air pollution;

90-Didn't answer the question,uncodeable-Put more people to work;limiting population we're dense as it is;people would have a better chance to maintain their rights not be dictated to;

96-Other (keep list)-

97-Refused (1st cols. only)
98-Don't know (1st cols. only)
99-No answer (1st cols. only)

7 refused
8 DK
9 no answer

Q.28. As you understand it, what is the penalty in this state for driving while intoxicated?

DECK 06, COLUMNS 57-60 Code mentions as outlined below for 1st offense onl

JAIL SENTENCE (code mid-point if range given) col.57
R-Not mentioned
1-1 month or less
2-2 months
3-3 months
4-4 months
5-5 months
6-6 months
7-~~7 months or more~~ arrested only (if also jail, code jail)
8-Severe (time unspecified)
9-Unspecified jail sentence

FINE (code mid-point if range given) col.58
R-Not mentioned
1-Less than $250
2-250-299
3-300-349
4-350-399
5-400-500
6-More than 500
7-
8-Heavy,stiff,etc. (amount unspecified)
9-Unspecified fine

LICENSE SUSPENSION (code mid-point if range given) col.59
R-Not mentioned
1-1 month or less
2-2 months
3-3 months
4-4 months
5-5 months
6-6 months
7-7 months to 12 months
8-More than 1 year
9-Unspecified license suspension

VEHICLE RESTRICTION col.60
R-Not mentioned
1-Car impounded
2-Car put on blocks,etc.

DECK 06, COLUMN 7:
1-Respondent first gave "don't know" but went on to answer Q.28.
2-Respondent did not first give "don't know" and then go on to answer Q.28.

DECK 06, COLUMN 75
1-Respondent gives answer to Q.28 for more than 1st offense
2-Respondent gives answer to Q.28 for 1st offense only

Q. 61 - col. 21
R - Inapp. (col. 19-20 not code 17-20)
1 - No
2 - Yes, no answer to type degree
3 - MA/MS
4 - Other masters (MBA, MSW, MPA)
5 - PHD
6 - Professional (law, medicine, RN)
7 - Refused
9 - No answer

Q.67 What is the ethnic or racial background of your family? (code respondent's identity of himself, no interpretation)

1-WASP, Anglo, Caucasian, White, American

2-Mexican-American, Chicano, Mexican

3-Black, Negro, Colored, Afro-American, African

4-Oriental, Oriental-American

5-Jewish, Jewish-American

6-Other hyphenated American

7-Other single identity

8-Other hyphenated identity

9-Refused, don't know, no answer

Q 42 add code

5. 2-5 yrs ago
6. 5 or more yrs. ago

Q 45 8 oz = 1 drink

Midwest

BEGIN DECK 01

A1. INTERVIEWER:_____ I.D._____ 23-24/

A2. TIME BEGINNING:_____AM/PM TIME ENDING:_____AM/PM # OF MINUTES:_____ 25-27/

Buenos días/tardes/noches. Soy del Centro de Estudios e Indignaciones de la Universidad de California en Los Angeles. Ud. ya habrá recibido una carta de nuestro Centro diciéndole acerca del estudio de la comunidad que estamos haciendo en Los Angeles. Estamos interesados en encontrar cómo la gente en el área metropolitano de Los Angeles se siente de la comunidad, qué problemas hay y qué es lo que se necesita para el futuro. La información que colectamos será escrita en reportes para oficinas de la localidad y en los periódicos locales. Sus opiniones son muy importantes porque Ud. ha sido escogido(a) científicamente para representar a cientos de otras gentes en Los Angeles. Cuanta más gente coopere, más éxito obtendrémos en reportar las necesidades de toda la gente en esta ciudad. TODO LO QUE UD. NOS DIGA SERA EXTRICTAMENTE CONFIDENCIAL. SU NOMBRE NO SERA MEZCLADO DE NINGUNA MANER CON LO QUE SE ENCUENTRE EN ESTE IMPORTANTE ESTUDIO.

A3. Primero, quisiera hacer una lista de las personas de 18 años o más, de las que viven aquí como miembros de su casa. Esto me servirá para saber cual adulto voy a entrevistar. (AFTER RECORDING INFORMATION IN "A," ASSIGN NUMBERS IN "E" WITH OLDEST MALE = 1, SECOND OLDEST MALE = 2, ETC. AFTER ALL MEN ARE NUMBERED, CONTINUE WITH WOMEN BEGINNING WITH OLDEST TO YOUNGEST.)

A. Name	B. Relationship to Head	C. Sex CIRCLE ONE M	C. Sex CIRCLE ONE F	D. Age	E. NUMBER & CIRCLE # SELECTED	F. Marital Status* INSERT
	28-29/	1	2	42/	49-50/	63/ 70/
