Replication Data: "Naming and Shaming as a Strategy for Enforcing the Paris Agreement: The Role of Political Institutions and Public Concern" by:

Dannenberg, Astrid (University of Kassel)
Lumkowsky, Marcel (University of Kassel)
Carlton, Emily K. (UC San Diego)
Victor, David G. (UC San Diego)

This folder contains the dataset and corresponding do-files to reproduce the main results from the paper "Naming and Shaming as a Strategy for Enforcing the Paris Agreement: The Role of Political Institutions and Public Concern " and from the Supplementary Information. The survey data was collected between September 2020 and January 2021 using an online questionnaire on QuestionPro. External data was matched based on the home country indicated by the respective respondent. Sources for external data are listed in the SI. For questions please contact: marcel.lumkowsky@uni-kassel.de

Files:

- 01_MAIN_PAPER_DATA.dta, Dataset that contains all observations and variables to reproduce results of the main paper.
- 02_MAIN_PAPER_DO.do, Stata do-file containing the commands needed to replicate the results of the main paper.
- 03_SI_DATA.dta, Dataset that contains all observations and variables to reproduce results of the SI.
- 04_SI_DO.do, Stata do-file containing the commands needed to replicate the results of the SI.
- 05_REPLICATION_CODEBOOK.pdf, PDF-file containing descriptions of the variables in the main dataset and the relevant survey questions.
