REPLICATION FILES FOR

PEDERSEN, RASMUS T. & LENE H PEDERSEN (2019):

"CITIZEN ATTITUDES ON POLITICIANS' PAY:

TRUST ISSUES ARE NOT SOLVED BY DELEGATION,"

PUBLISHED IN *POLITICAL STUDIES*

May 2019

This document describes the files needed to reproduce the results reported in the article *"Citizen Attitudes on Politicians' Pay: Trust Issues Are Not Solved by Delegation*

The replication files are as follows:

1. **Rawdata_Citizen_Attitudes_on_Politicians_Pay**: Raw survey data received from survey company (Microsoft Excel file format: .xlsx)
2. **Analysis_Citizen_Attitudes_on_Politicians_Pay reactions**: A Stata do-file, used to produce all of the empirical results reported in the article (Stata file format: .do)

To reproduce the results:

1. Download all replication files in their original file and save them in "C:\Politicians_Pay" - If files are saved elsewhere, minor adjustments may be needed in the Stata do-file.
2. Run the Stata do-file **Analysis_Citizen_Attitudes_on_Politicians_Pay reactions**, which uses the datafile **Rawdata_Citizen_Attitudes_on_Politicians_Pay**.
